## ENDORSE MUNICIPAL HOSPITAL PLAN

### Board of Trade Greatly Impressed With Address by Hon. George Hoadley

Meeting Goes on Record Unanimously for Government Scheme to Include Municipalities of Wetaskiwin, Montgomerie, Bigstone and Millet—Mayor Montgomery and Several Others Participate in Discussion, With President Ballhorn Occupying the Chair

The monthly luncheon of the Wetaskiwin Board of Trade was largely attended by both men and women on Monday evening last, when Hon. George Hoadley, Minister of Health, gave a very lucid address on the question of Municipal hospitals in the province. Considering the condition of the roads, a large number of farmers were also present.

In his introductory remarks, the minister said:

"I can assure you that it is a great pleasure to come to Wetaskiwin and talk to you about hospitalization. When you come to these luncheons you come with a great deal of satisfaction, as you have a good meeting place, and enjoy a good meal, and have a nice sociable time.

"I would like to say, that throughout the province there is a general interest in hospitalization. It is rather a difficult problem for me to talk about hospitalization without any indication as to the feeling that exists in your community on this important question. I hesitate to point out the need of modern hospitalization to this intelligent gathering at this stage of civilization, or to presume to talk to you as to the desirability of such an institution. We have nineteen municipal hospitals in operation, and one is not yet completed. Some have had difficulties by the way, the same as we have in our business: Little ups and downs and hills to climb and difficulties to overcome, but they have been successful. Most of them have a large surplus on hand, without borrowing. Now at this stage, may I say this. There is no good contemplating a hospital if you are not prepared to pay for it. Hospitals must have all the necessities and they cost money. There is no certain thing in connection with health, and the service of a hospital may be required at a moment's notice. There is no satisfaction in a community hospital, and it is unwise to erect a hospital unless you have a sufficient revenue to take proper care of that institution. A voluntary system is no good to you, because there is not a foundation. You can build your house on the sand until the water comes. Just the same with the idea of hospitalization. The foundation for the municipal hospitalization is that foundation that comes for a certainty in the way of revenue, and I must say that I entirely agree with the municipal system.

"I have not seen what sort of a hospital you have here, I am speaking from the standpoint of the building. But I do know this: I have been coming to Wetaskiwin a long time, and as you are ambitious to have a hospital, I will be bitterly disappointed if Wetaskiwin should fail to get as good a hospital as Elk Point and Kitchikot. They have municipal hospitals and they are run successfully, and if they can have them, you can have them. I am positive. Why can't you have as good a hospital as Stettler? You have the district, the land and the wealth. The larger the population, the more you need this health element. One of the greatest problems is saving a mother's life and child. I hope there is not one who would not contribute a little money when it means so much. I have heard people say, 'Well, I might pay taxes for years

and I might never be in one.' Such a man is not able to pay and should do so gladly.

"After all, I think it is a question of really looking the question right in the face and arriving at what it means. Some hospitals in the country charge \$3.50 a day. The ordinary average length of time in a hospital is ten days. Ten days at \$3.50 a day is \$35.00. The average cost per patient in municipal hospital is \$1 per day, with a tax of three cents an acre on the land, which covers all medicine and things necessary, if you never get sick, you lose your money! When a woman goes into the hospital for a maternity case, she does not have to think of the \$1 per day, and when she leaves the hospital, she can go home, with her child in her arms, happy that she has not the burden of expense to meet. It will be a great day when people can put down a sum of money and say that will take care of hospitals, physicians, etc. One of the greatest injustices to doctors is to expect them to work for nothing. It can not be expected any more than we can grow grain for nothing.

"The municipal hospital is becoming in general demand. Twelve different districts have voted for hospitalization. All favorable to municipal hospitalization. I do not know that I can say a great deal more about the question. After all, it is very important that those who suffer and those who are sick, have skilled attendants and proper conditions surrounding them when they are sick, with skilled doctors when they need them. I am convinced that if you will all be of one mind and pull together, you can build as good a hospital in the city of Wetaskiwin as any other part of Alberta. I don't care how much or how little money you have in the bank, you have a way of making your living. What is \$500 a year—the assessment on a quarter section of land under the hospital scheme, when you are sick, and perhaps may die if not properly cared for? But again I say to you, you cannot do these things unless you are prepared to pay for them.

"I heard of one case in a hospital a long way from here, where the hospital was much appreciated by some people and they found one case where they did not want to go out of the hospital. Boarding in the hospital for \$1 per day was very attractive, and the patient did not want to leave. I received a query from one of the districts asking if people could become boarders and nothing could be done for them. The Act covers the case and provides that a hospital is for sick people and not for well people, and no hospital need keep people when they are well. I could tell you something of hospitals throughout the world, the efforts they are making in connection with maternity, and how we stand compared to other provinces, but time will not permit. We do not stand second to any regard to maternity deaths, and of course that is one of the grounds that I take in connection with hospitalization in general. We pay large sums of money to bring settlers into the country. What about the little one who comes out of the hospital in its mother's arms? And I may say this is one of the things we do feel a certain amount of satisfaction.

(Continued on Page 4)

### Supreme Court Sittings Are Being Held Here This Week

Mr. Justice Ford is holding the Spring sittings of the Supreme Court, here this week, for the trial of Civil cases. The following cases have been disposed of:

Risto vs. Bulhafer.—This case was settled out of Court. A. Knox for Plaintiff, Odell & Russell for defendant.

Mikelczyk vs. McGuffin.—This was a claim against a doctor in Calgary for alleged negligence in the performance of an operation. The action was dismissed with costs. A. Knox for plaintiff, Adams & Edwards, Calgary, for the defendant.

Munroe vs. Thomas.—This was an action for an accounting regarding the sale of certain farm machinery. After considerable evidence had been taken, the case was settled between the parties. G. B. O'Connor, K.C., and H. E. Stanton for the plaintiff; Loggie & Manley for the defendant.

Other cases on the list are being proceeded with as we go to press.

Myrtle: "What is the most dangerous part of an automobile?"

Grace: "The nut that holds the steering wheel."

### DECISION GIVEN IN McKENNEY-ROOT CASE

In the above named case which was begun about one year ago in Wetaskiwin and finished in Edmonton in November last, Mr. Justice Boyle has recently handed down a judgment for the plaintiff, giving the sum of \$3500 general and special damages in addition to costs.

Howatt & Howatt acted for the plaintiff, S. B. Woods, K.C., and C. H. Russell for the defendant. It is understood that the defendant, Mr. Root, will appeal the decision.

### Town Topics

Ray H. Compton of Edmonton, was a weekend visitor at the home of his parents.

Mrs. Abousaffy, entertained at tea on Monday afternoon for the visiting ladies of the Royal Purple.

William Mellett, who was confined to the house for a few days of the past week, is now around again as usual.

The Norwegian Lutheran Ladies' Aid will meet at the home of Mrs. E. Ness, on Friday, April 12, at 3 p.m.

Mrs. Parlee of Millet, who underwent a serious operation in the hospital a few days ago, is reported to be doing nicely.

Mr. Kaeschele is moving his family to Medicine Hat, and the house he is vacating on Beatrice street has been rented by E. Weir.

Among those from Wetaskiwin who attended the I.O.B.E. convention in Edmonton last week were, Mrs. R. W. Manley, the delegate, Mrs. Wiseman, Mrs. Chiddy and Mrs. Hogan.

The dance on Friday evening last under the auspices of the L.O.L. and L.O.B.A. in the U.S.A. hall was a very successful success. A good crowd was in attendance and a very enjoyable evening was spent.

Among the forty nurses who graduated from the Holy Cross Hospital, Calgary, on Wednesday last, was Miss E. B. Bisset of the Wetaskiwin district. Her sister, Mrs. Carl Wallin went down to attend the graduation.

The weather during the past week has been quite chilly, as a heavy fall of snow occurred for two or three days. It has helped supply some of the needed moisture for the ground, but it will delay seeding operations for at least a week or ten days.

C. O. Cunningham and son have disposed of the Sanitary Meat Market to Lingjerde and Jonnassen of Camrose, who have taken possession of the business. We would draw the attention of our readers to their announcement elsewhere in this issue.

Mr. and Mrs. Murray S. Saunders of Calgary, paid an official visit to Crescent Rebekah Lodge No. 6 on Tuesday evening. Mrs. Saunders is Vice-president of the Rebekah Assembly, and Mr. Saunders is a P.G.P. of the Grand Encampment of Alberta. Refreshments were served and an enjoyable evening was spent.

The last social event of the season given by the Old Timers' Association will take place on Friday, April 19, with a dance, held in the Memorial hall, Edmonton, which will include waltzes, polkas, quadrilles, minuets, etc. Also keep in mind the Buffalo Robe contest. Old Timers are invited to make the Cabin at the Exhibition grounds their headquarters during the Bi-centennial fair.

While attending the Calgary Stock Show last week, Roy Ballhorn sold four of his fine Polled Angus animals, receiving an average price of \$291 each. He also purchased a fifteen-month-old calf, which was awarded first prize at the Calgary, Edmonton and Saskatoon fairs, as well as second at the Toronto exhibition last fall. Roy expects his competitors to slip up and take notice in two or three years time.

Jean Laboucane entered a plea of guilty before His Honor Judge Lees at the Court House here on Tuesday, the 2nd inst., to a charge of theft of a rifle of a value of about \$10.00, the property of one W. Hinkel. The theft took place at Snell Bros. Lumber Camp, Battle Lake, on the 15th ult. The accused and Hinkel were fellow laborers at the camp. Laboucane was given six months' imprisonment at the Provincial Gaol at Fort Saskatchewan.

### Obituary

CLARA V. STANFORD

Mrs. Clara V. Stanford who arrived in town a few days ago on a visit to her daughter, Mrs. Ed. Lake, passed away on Sunday morning, at the age of sixty-one years and seven months. The late Mrs. Stanford was born in Ionia County, Michigan, and came to Wetaskiwin in October, 1910, and resided here until 1917, when she left to take up her residence with her daughter Margaret, at Hanna. She was sick for some time with a lingering illness, and everything possible was done to spare her life, but to no avail. She moved up with her daughter to spend the Easter vacation, but took a serious turn, and passed away peacefully.

She leaves to mourn her loss, one son, Charles R. Stanford of Seattle, Wash., two daughters, Mrs. Ed. Lake of Wetaskiwin and Margaret of Hanna. Three sisters, Mrs. John Preston and Mrs. J. H. Cameron of Edmonton, and Mrs. J. H. Klaus of Groton, S. Dak. and two brothers, Fred Alderman of Wetaskiwin, and Frank Alderman of Edmonton, as well as ten grandchildren.

The funeral took place from the First United Church on Tuesday afternoon, service being conducted by Rev. A. L. Elliott. Mrs. Chas. Boyer sang a solo very effectively, and the floral tributes were especially beautiful. Quite a number of old time friends were in attendance to pay their last tribute of respect to the departed. The remains were laid away in the family plot in the Wetaskiwin cemetery.

GERALD ALPHONSE MEILLHARGY  
The sympathy of the community is extended to Mr. and Mrs. A. L. Meilhargy in the loss of their infant son, Gerald Alphonse, who was taken from them by the angel of death on Wednesday last. He was a few days' illness with pneumonia. The deceased was aged three months. The funeral took place on Friday, interment being in the Roman Catholic cemetery, west of the city.

### FUNERAL HEARSE RUNS INTO DITCH

Ponoka, April 5.—Neil Nelson of Ponoka, had a narrow escape from serious injury shortly before noon on Wednesday, when in avoiding another car coming in the opposite direction, on the new road just south of town, the funeral hearse which Mr. Nelson was driving, skidded into the ditch that runs parallel with the highway at this point. Fortunately, although the hearse struck a large stone, it did not upset.

Mr. Nelson was somewhat shaken up, but otherwise uninjured, and the car was only injured to the extent of a broken window and a few scratches.

### TO ERECT SIGNS CALGARY-EDMONTON

Erecting of signs on the main highway between Calgary and Edmonton will soon be under way, through the efforts of the trail marking committee of the Alberta Motor association. Several master signs have been completed and it is planned to place these in desirable locations on the principal roads.

Sending out of arrow signs to all villages and towns in the province is also being carried out by the committee. This is in connection with the province-wide campaign to extend highway marking.

### LIVES LOST IN ONTARIO STORM

Toronto, April 6.—Probably five lives were lost in the devastating electrical storm, accompanied by heavy rain that swept central Ontario last night, inundating railway tracks, affecting bridges and culverts on highways and causing other damage of a serious nature to cellars, property and communication.

Two lives were lost at Harmony, Ont., when an automobile plunged through a bridge washed out by the heavy rain, the driver of a Canadian Pacific Railway freight train was killed in a derailment, and the engineer of a C.N.R. passenger train is missing after another derailment. Both were caused by washouts near Bowmanville.

Streets in Toronto became impassable and were washed out in places. Cellars of residences in the low-lying districts, sewers and subways in all parts of the city were flooded.

A well-known Irishman touring the States, was asked for the proper definition of an Irish "bull." "Well," said he, "if you saw three cows lying down in a field and one of them was standing up that would be a 'bull.'"

### THREE MEMBERS OF TRAIN CREW WILL BE TRIED

Parry Sound, Ont., April 6.—As a result of a preliminary hearing in police court here yesterday, the engineer, fireman and coal braken on the Canadian National train No. 3, which ran past its appointed meeting place at Durocourt on the morning of March 20 and collided head-on with another train, are to stand trial for manslaughter. The men were committed for trial by Magistrate J. D. Broughton and immediately afterwards were released on renewed bail.

### Town Topics

Have you signed up as a member of the Wetaskiwin Board of Trade? If not, why not?

Mr. Bakken is moving his family from Beatrice street to the house vacated by the Weir family.

The friends of Mrs. P. A. Miquelon are glad to know that she is now convalescing nicely from a severe attack of the flu.

J. S. Watson had the misfortune to be kicked by a horse on Monday. He was laid up for a day or two, but is now able to be around again.

Ely Abousaffy, who has been employed at Lacombe for some time, has returned to Wetaskiwin, and is now assisting in the store of Abousaffy and Sons.

Miss Betty Turner entertained at a charming dance on Thursday evening in the home of her parents 125 street in honor of her guest, Miss Helen Gable of Wetaskiwin.—Journal.

Ted Bieller had the misfortune to dislocate his shoulder a few days ago, while practicing one of the stunts which the Bieller Boys intended to stage in connection with the minstrel show.

W. J. Pickard is in Edmonton this week, attending the stock show. He has entered his herd of Jerseys in competition, and there is no doubt but that he will get a good share of the prize money.

E. E. Sparks informs The Times that a number of the early birds are dying off, apparently for the want of nourishment. He suggests, especially to the boys and girls, that they place food where these early harbingers of spring can get it.

A. E. Butler, who has been the teller at the Wetaskiwin branch of the Imperial Bank for some time, has been transferred to Winnipeg, and has left to assume his new duties. His many Wetaskiwin friends are glad to know of this promotion and wish him every success for the future.

The Coal Lake Local U.F.A. No. 87 will hold their regular monthly meeting in the Crooked Lake Community hall on Saturday evening, April 15. Besides the usual order of business, Mr. Neil Linden will give a lecture on seed grain selection, and a pantomime will be put on by the Sons of Norway local.

Among the property deals of the past few days is the sale of the Gulekison residence in the eastern part of the city to Mr. Lingjerde, who is moving his family from Camrose. D. A. Lassall and family, who have occupied the Gulekison home, have leased the residence being vacated by Mrs. Wollin.

Mrs. W. J. Pickard and daughter returned from Rochester a few days ago, where the latter was receiving treatment in Mayo Brothers' Hospital for an injured limb, the result of an accident of some months ago. The friends are glad to know that the treatment was successful and it is hoped that the patient will eventually be permanently cured.

Mr. and Mrs. Emil Recknagle and P. J. Kuester who left about five months ago on a motor trip through the States, returned home a few days ago. They motored through the Dakotas and visited several places in Iowa, their old home State. After visiting a number of friends and relatives in Iowa, they proceeded to California and spent most of the winter at Long Beach. En route home, they had some difficulty getting through the mountains on account of the snow and were quite surprised to find the district covered with snow and the weather quite cold upon their arrival. They travelled about ten thousand miles altogether, and report having had a delightful holiday, but at the same time they are glad to return to their old home in Wetaskiwin.

### Board of Trade Seeking Provincial Government's Aid to Keep Roads Open

#### PRICES RECEIVED FOR DISTILLATE TO FARMERS

At the Board of Trade luncheon on Monday evening, the following report was given by the chairman of the Trade and Industrial Committee:

With regard to the request made by the Board at the general meeting, that they should write to the oil companies asking them to ship distillate tractor fuel into Wetaskiwin for distribution, Mr. G. Baker, chairman of the Trade and Industrial Committee, reported that the Maple Leaf Oil Co. are prepared to supply distillate to farmers and others by the barrel at 23c per gallon, and that the oil companies generally objected to supplying it in bulk due to the excessive cost of installing the necessary equipment to handle it.

#### KILLAM FARMER THREATENS SUIT AGAINST GOVERNMENT

Alleging illegal commitment to, and detention at Ponoka provincial mental hospital, Alberta T. Erickson, well-to-do farmer of Killam, may enter suit against the Alberta government for a sum not less than \$10,000.

Erickson was committed to the custody of the Alberta provincial police to await the order of the attorney general on a magistrate's warrant certifying him to be insane and dangerous to be at large.

It is alleged that Erickson himself was not present at the hearing of the evidence of his wife, who laid the information for his commitment against him, and that no warrant for his incarceration at Ponoka was issued by the attorney general, as required under the act.

He was taken into custody by the police, escorted to Ponoka hospital, and there placed within the institution, without any warrant of commitment having been issued by the provincial attorney general's department.

Two days later, on representations from relatives and on the application of his legal advisers, and on instruction from the attorney general's department, Erickson was released, and has since been back at his home near Killam.

Erickson is a well known farmer of the Killam district, where he has six brothers, all of them well-to-do farmers.—Journal.

#### HUDSON BAY LINE PRAISED BY THE BRITISH PRESS

London, April 6.—Completion of the railroad to Fort Churchill on Hudson Bay is favorably commented upon by the leading British newspapers today. The Manchester Guardian says: "Manchester is expected, through traffic on the ship canal, to feel the effect of the completion. The opening of Fort Churchill considerably shortens the route from the grain centres west of Glasgow and Liverpool with a big reduction in the time and expense of transshipment. The Hudson Bay railway will not only provide a shorter journey from Edmonton to Liverpool, but will decrease the rail haul and provide a cold ocean trip which is expected to be of advantage to the dairy and stock raising industries of Canada."

The Daily Chronicle is also enthusiastic.

### O.O.R.P. Celebrate Second Anniversary of Lodge Here

A most enjoyable evening was spent in the New Elks Hall Monday evening, when Ladies of the Order of the Royal Purple gave a birthday party to celebrate their second anniversary. The Elks, their wives and sweethearts were the invited guests, about forty arriving from Edmonton, Killam and Ponoka.

Over 200 sat down to supper after the Lodge session. Court Whist was played, prizes going to Mrs. Gibson, Mr. D. Baker and Mrs. Hagedorn of Killam.

Two pretty dance numbers in purple and white costumes were then given by Lois Burroughs and Helen Burkholder, directed by Mrs. Emma. A violin and trombone duo by Mrs. Condie and Stanley Chandler was much enjoyed.

Honored Royal Lady Chiddy wel-

#### Resolution Submitted by Roads Committee Unanimously Endorsed When Presented at Luncheon

At the luncheon of the Wetaskiwin Board of Trade on Monday evening, the following resolution submitted by the Roads Committee was unanimously passed, and if acted upon will solve the problem of keeping the highways in this community open for winter motor traffic.

We, your Roads Committee, having been requested by the Board of Trade to report on the question of keeping roads open for motor traffic in winter, beg to make the following report:

We strongly recommend that the Provincial Government keep the main highways open for motor traffic during the winter months, and we confidently believe that the increased revenue derived from the gasoline tax made possible by winter traffic, would more than cover the cost incurred in snow removal, and save a large amount of money on account of the roads needing less repair work following the spring thaw.

Our information is that other Provinces in Canada and most of the States south of the line are recognizing the necessity of open winter roads and are taking the necessary action to attain this objective.

We further recommend that the Council of the City of Wetaskiwin and the municipalities of Montgomerie and Bigstone be asked to co-operate with the Government and keep the main streets and market roads opened up to connect with the main Government highways.

In view of the fact that this would result in greatly increased traffic, not only on market roads but main roads as well, with the resultant increase in revenue from the sale of gasoline, it would be only fair and just that the Government should share this expense with the municipalities.

B. S. WALLIS, Chairman.

#### NEGOTIATIONS NOW UNDER WAY BETWEEN JAPAN AND ALBERTA

Providing negotiations now being conducted between the provincial department of agriculture and the Canadian Co-operative Wool Growers' Association are brought to fruition, a \$600,000 a year wool market being opened up in Japan for Alberta wool growers is a strong probability, according to information made available on Thursday.

The foundation for the development of such a market was laid last year when some grade samples of Alberta wool were sent to Japan. These were put through the most severe sort of tests by Japanese authorities and were pronounced satisfactory. As a result, Japan has asked for further samples, with special attention paid to the finer wools from ranges in the southern sections of the province.

A loud and objectionable bore had been talking for hours about himself and his achievements.

"I'm a self-made man, that's what I am—a self-made man," he said.

"You knocked off work too soon," came a quick voice from the corner.

## WETASKIWIN GETS FREE NATIONAL ADVERTISING

In this issue of The Times appears an article headed "A Wetaskiwin Champion," reprinted from The Canadian Athlete, a monthly magazine published in Toronto and with Dominion-wide circulation. Accompanying the article as it appeared in the "Athlete," was a photo of "Queen" Norma Chid, an athlete, who is a Wetaskiwin girl. Wetaskiwin is getting considerable free national advertising through the activities of the Wetaskiwin Sports Association. This is not the first occasion in which this community has received publicity in a national way. In a recent issue, profuse with illustrations and descriptive material of Canada's great success at the Olympic games, was a

## Had Trouble With Her Kidneys Back and Head Aches

Mrs. H. Benjaminson, Otto, Man., writes:—"Shortly after the birth of my little girl I took very sick and was in bed most of the time. I had back-aches, headaches, and was all run down, and I had trouble with my kidneys. I tried all kinds of medicine, but nothing was able to relieve me. As I have eight children, and my husband was away at the time I sent for him to come home, and when he did he brought me five boxes of Doan's Kidney Pills. After I had finished them I felt so much better I was again able to look after my family and household."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. M. Burns Co., Limited, Toronto, Ont.

longly article from the pen of John Leale, secretary of the A.A.U. of C. dealing with the Alberta Junior Track and Field Meet held here last fall, and which he described as "the most successful in the history of the Branch." Particular reference was made to the fact that arrangements had been made to billet the young stars coming here from other centres and embodied in the report was an excerpt from a letter received by the secretary of the Sports Association: "It is this kind of treatment that encourages junior sport and makes parents feel that they are not afraid to let their children go away from home as they know they will be well cared for." This procedure on the part of the local Sports Association was an innovation in the history of Canadian athletics, and the resultant nation-wide publicity doubtless has paved the way for similar arrangements in other parts of this broad Dominion. Just as the achievements of Canada's Olympic team and the famous Edmonton Grads have been of inestimable value to Canada as an advertising medium in fields afar, so have the accomplishments of the Wetaskiwin Sports Association and "Queen" Norma meant much to this community, and our citizens can take much satisfaction out of the fact that "The Canadian Athlete" sets up the city of Wetaskiwin as an example to the smaller cities and towns of the Dominion of Canada which have been delinquent in the matter of fostering amateur track and field athletics and thereby assisting in the development of talent for the Olympic Games of the future.

## TEN CAUSES FOR "SPOILED" CHILDREN

Parents who are spoiling their children will do well to stop and consider the underlying causes of the spoiling and the results of it, as analyzed by Dr. George K. Pratt in Hyslop:

1. Most selfish, disagreeable, conceited or unreliable adults were once spoiled children.

2. Remember that what your child is in temperament, up to ten and twelve years of age, usually indicates what he will continue to be all the rest of his life. Temperaments are

molded, not born. You, as his parent, can mold him during those flexible years into almost anything you desire.

3. A spoiled child generally means he has selfish, neurotic or thoughtless parents.

4. Highly unattractive methods early. A child can be as thoroughly spoiled at two months as he can at four years.

5. Don't always do for your child those things he should learn to do for himself.

6. To "give in" habitually to your child is not an evidence of real motherly love. More likely it is proof that you prize your own immediate comfort above the child's welfare.

7. Don't "show off" your child before company. Even tiny babies soon learn by this to demand excessive attention.

8. Don't determine to give your child all the luxuries and advantages you may have looked in your own childhood. Make him earn some of them.

9. Give him some responsibility each day and insist that he carry it out. This encourages self-reliance and fosters pride of achievement.

10. All praise and no blame makes Jack a conceited boy.

## WHAT NEWSPAPER ADS DID

It was only a few years ago that the retail stores in towns and the smaller cities did the bulk of their week's business on Saturday. While the other five business days might have paid expenses, the merchant depended upon the Saturday sales for the major portion of his week's profit. Needless to say the average merchant would have been exempt from excess profits taken in those days.

The newspaper is given credit for discovering the possibility of scattering the Saturday peak load over the six business days of the week and it was newspaper advertising which has achieved the present more equitable distribution of the week's business. Saturday is still the merchant's busy day, but now he is only a little less busy on the preceding five days.

This is only one of the many services performed for business by newspaper advertising. It is irrefutable that a great part of the increase in business experienced by the retail

## MORE NORSEMEN FOR THE WEST

This photograph was taken at Winnipeg after the arrival of the first immigrant special train this season, over the Canadian National Railway, March 20. There were 200 broad-shouldered Scandinavians in a total of 300 arrivals, which included 22 British settlers. Two trains, which followed the first special a day later, brought the total of newcomers up to nearly one thousand. At least half were Scandinavians. All the immigrants have been placed by the Canadian National Railway's colonization department.

stores generally in recent years has been created by newspaper advertising. Newspaper advertising has been the "Aladdin's Lamp" of the retail merchant. There are still isolated towns where one may see for himself what "might have been," the nation over if newspaper advertising had never been.

## THE STEPPING STONES

Father I fear, the night is dark, the river very wide;  
I fear the slippery stepping stones, the angry swirling tide.  
Courage, my child, give me thy hand, I heed not the water's roar;  
I know each slippery stepping stone, and I will guide thee o'er.

Father, I fear the blinding rain, it makes me faint with fear.  
I cannot see the stepping stones, if it be fair or near.

Trust me, my child, take hold my hand, step where my steps have been;  
The light shines in Thy Father's home, tho' darkness intervenes.

Father, I fear the cruel hail, it smites me grievously;  
Father, take hold my trembling hand, I neither feel nor see.  
My child, the Everlasting Arms are round thee all the way;  
And fear and cold and pain, shall pass and might be turned to day.

I lay my prayer before Thee, still trusting in Thy word;  
Thy love shall guide in my heart; I know that Thou hast heard.  
To that blest city lead, O Lord, still choosing all my way;  
Where faith melts into reason as the starlight into day.

The clock of life is wound but once, and no man has the power;  
To tell just when the hands will stop, at late or early hour.  
Now, is the only time you own, live, love, toil with a will;  
Place no faith in tomorrow, for the clock may then be still.

—Contributed.

## BYGONE DAYS

(By Walt Mason)

A man grows old and gray at last, and then his thoughts are of the past, of golden days that died; and happy is that ancient wight whose recollection

## If Stomach Hurts Drink Hot Water

Neutralize Stomach Acidity, Prevent Food Fermentation. Stop Indigestion.

"If those who suffer from indigestion, gas, wind, or flatulence, stomach acidity or sourness, gastric catarrh, heartburn, etc., would take a teaspoonful of pure Bismarck's Magnesia in half a glass of hot water immediately after eating they would soon forget they were ever afflicted with stomach trouble, and doctors would have to look elsewhere for patients." In explanation of these words a well known New York physician stated that most forms of stomach troubles are due to stomach acidity and fermentation of the food contents of the stomach combined with an insufficient blood supply to the stomach. Hot water increases the blood supply and Bismarck's Magnesia, which can be readily obtained at any reliable drug store, in either tablets or powder, instantly neutralizes the excessive stomach acid and stops food fermentation; the combination of the two, therefore, being marvelously successful and decidedly preferable to the use of artificial digestants, stimulants or medicines for indigestion.

## THE USE OF DRUGS

Many of our correspondents have written to us, asking for advice in regard to treatment and, particularly, concerning the value of some particular drug as a remedy for the illness of which they are the victims.

We refer to this because it shows that there is a lack of understanding concerning the use of drugs. In the first place, the proper treatment of disease depends upon a diagnosis. Some treatment may be given to relieve the symptoms of which the patient complains, but the real treatment of disease is directed, as far as possible, towards the removal of the disease. If, for example, a patient suffers from headache due to faulty eyesight, the proper treatment of such a case is not to give some drug to relieve the headache, but to remove the cause, by prescribing proper glasses which will end eye-strain—the cause of the headache.

All cases are not as simple and direct as this, however. In many cases, it calls for all the skill which the physician acquires, from years of training and experience, to search out the cause and to prescribe proper and adequate treatment. It is just because it goes require this special training and experience, which the layman lacks, which makes it dangerous for people to attempt to treat themselves. Not only may considerable harm be done by the improper use of drugs, but, in addition, time is being lost in obtaining skilled medical treatment for the real cause of the trouble. There is no question but that the best chance for successful treatment lies in early treatment. The longer treatment is delayed, the less chance there is for it to be successful.

For these reasons, it seems evident that it is in the interest of the patient to secure proper, adequate treatment from his physician, rather than to attempt to treat himself.

Questions, concerning health, addressed to the Canadian Medical Association, 134 College Street, Toronto, will be answered personally by letter.

# The Greatest March in all McLaughlin Buick History

THE motor-car buyer... the final judge of automobile values... has registered enthusiastic endorsement of the revolutionary advances made by the 1929 McLaughlin-Buick!

During the past month, McLaughlin-Buick sales have been 25% greater than March of last year... a greater than any previous March in all McLaughlin-Buick history.

More people buy McLaughlin-Buick than any other car at or above its price... because the 1929 McLaughlin-Buick with its Masterpiece Bodies by Fisher, has unquestionably established a new standard of performance and a new order of beauty.

Get behind the wheel and get the facts!

## STORES WELL FUMIGATED

Two stores in town were well fumigated this week and should now be in a hundred per cent sanitary condition. The cleansing process was not at the order of the board of health, either. A defective tap in a barrel of formaldehyde in Munro's drug store let about twenty gallons of the fluid run out on the floor and into the cellar during Tuesday night, with the result that when the furnace was started in the

morning everything alive in the drug store and the hardware store adjoining had to either get out or pass out, and it was well into the afternoon before the storekeepers and their clerks could return to the premises with any degree of comfort—Leduc represents.

"What a sad looking store!" said "Why? Because it has rats, mice, and windows?"

"No, the books are in, up, and out."

## EIGHTH INSTALLMENT

### WHAT HAPPENED BEFORE

Palmer is the scene. There an ex-Englishman, Leonardo, had come for love of Adrienne Cartucio, who spurned him. He meets an Englishman, Lord St. Maurice, who falls in love with Adrienne on sight. Leonardo sees his sister Margharita, who tells him his love for Adrienne is hopeless. But he pleads with her to arrange an accidental meeting, to say farewell, between Adrienne and him.

She consents. That night the Englishman is informed of an attempt being made to carry off Signorina Cartucio and Margharita, who are walking, by brigands employed by a rejected suitor, on a lonely road. He rushes to the scene, and proves able to rescue the ladies.

Inflamed by the failure of his scheme, Leonardo sees Margharita, who shows him she knows that he was instigator of the attempted attack. The Englishman now sees Adrienne often. The Englishman, sitting in the hotel, finds a danger at his feet. Looking up, he sees the Sicilian, and sends trouble. "We sat here a week ago," recalls Leonardo. Lord St. Maurice nods.

Leonardo and the Englishman quarrel. The Englishman at first refused to accept a challenge to duel, then when the Italian slaps him, consents. The two men face each other ready to fight to the death.

Margharita stops the duel by coming in the nick of time to save the Englishman from his fate, who then officers who arrest the ex-Italian. Leonardo vows vengeance. After 25 years in jail he is again at his hotel, an old, broken man with only memories left to him.

At his hotel the proprietor, worried about him, advertises for his friends and Leonardo is first visited by the woman he had loved, whom he shoots out of his sight. Then comes to him the daughter of his sister, whom he greets in great surprise. He learns that his sister is dead.

Count Leonardo tells his niece the story of his love for Margharita. She is sympathetic.

### NOW GO ON WITH THE STORY

Margharita looked like a beautiful wild animal in her passion. Her hair had fallen all over her face, and was streaming down her back. Her small white hand was clenched and upraised, and her right, supple figure, panther-like in its grace, was distended until she towered over the little shrunken form before her. Terrible was the gleam in her eyes, and terrible the fixed rigidity of her features. Yet she was as beautiful as a young goddess in her wrath.

"No!" she cried fiercely, "the Order shall not die! You belong to it still; and I—I, too, swear the oath of vengeance! Together we will hunt her down—this woman! She shall suffer."

"She shall die!" he cried.

A slight shudder passed across the girl's face, but she repeated his words.

"She shall die! But, uncle, you are ill. What is it?"

She clasped his hands and held him up. He had fainted.

"Where am I, Margharita?"

She leaned over him, and drew a long deep breath of relief. It was the reward of many weary days and nights of constant watching and care. His ailment, his reason was saved.

"In your own room at the hotel," she whispered. "Don't you remember?"

They were taken ill. He looked at her, hopeless and puzzled. Slowly the mists began to roll away.

"Yes, you were with me," he murmured softly. "I remember now. I was telling you the story of the past—my past. You are Margharita's child. Yes, I remember. Was it this afternoon?"

She kissed his forehead, and then drew back suddenly, lest the warm

quivered upon the balance for another week. He would either awake perfectly, reasonable, in all respects his old self, or he would open his eyes upon a world the keynote to which he had lost forever. In other words he would either awake a perfectly sane man, or hopelessly and incurably insane. There would be no middle course. That was the doctor's verdict.

And through all those long days and nights Margharita had watched her uncle as though he had been her own father. All the passionate sympathy of her warm southern nature had been kindled by the story of his wrongs. Day by day the sight of his helpless suffering had increased her indignation toward those whom she really believed to have bitterly wronged him. Though these long quiet days and silent nights, she had brooded upon them. She never for one moment repented of having allied herself to

"Mother, don't you think that Miss Briscoe is a very strange girl?"

tear which was quivering on her eyelid should fall back upon his face. "It was three weeks ago!"

"Three weeks ago?" He looked wonderingly around—at the little table at his side, where a huge bowl of sweet-scented roses was surrounded by a little army of empty medicine bottles, at Margharita's pale, wan face, and at a couch drawn up to the bedside.

"And you have been nursing me all this time?" he whispered.

She smiled brightly, through the tears which she could not hide.

"Of course I have. Who has a better right, I should like to know?"

He sighed and closed his eyes. In a few minutes he was asleep. For a fortnight his life had hung upon a thread, and even when the doctor had declared him out of danger, the question of his sanity or insanity

was still to ring in her ears. Her only fear was that he would emerge from the blue illness under which he was laboring, so weakened and shaken, that the desire of his life should have passed from him. She had grown to love this shrunken old man. In her girlhood she had heard stories of him from her nurse, and many times the hot tears had stood in her eyes as she conjured up to herself that pathetic figure, waiting, year by year, for that liberty which was to come only with old age. She had thought of him, sad-eyed and weary, pacing his lonely prison cell, and ever watching through his barred window the little segment of blue sky and sunlight which penetrated into the high-walled court.

How he must long for the scent of flowers, the fresh open air, the rustle of leaves, and the hum of moving insects. How his heart must ache for the sound of men's voices, the touch of their hands some sense of loving or friendly companionship to break the icy monotony of his weary, stagnant existence. Her imagination had been touched, and she had been all ready to welcome and to love him as a hero and a martyr, even if he had appealed to her in no other way. But when she had seen him stricken down and helpless, with that look of ineffable sadness in his soft dark eyes, it was more than her sympathy which was aroused, more than her imagination which was stirred. Her large pitying heart became his absolutely. She was alone in the world, and she must needs love some one. For good or for evil, fate had brought this strange old man to her, and woven this tie between them.

He held out his hands; she grasped them fondly.

"Margharita, she came here!" he whispered.

"What, here? Here in this room?"

"It was two days before you came. I was sitting alone in the twilight. The door opened. I thought I was dreaming. It was she, as beautiful as ever, richly dressed, happy, comely. She came to pity, to sue for pardon. I let her talk, and then, when I had gathered strength, I stood up and cursed her. I thrust her away; I cursed her with the fiercest and cruellest words which my lips could utter. It drove the warm color from her eyes. I cursed her till her heart shook with

four. She staggered out of the room a stricken woman. I—"

"Tell me her name."

"It was Adrienne, Cartucio. It is now Lady Maurice."

"The Lady St. Maurice! She was my mother's friend then?"

"Yes."

Margharita's eyes were bright, and her voice trembled.

"Listen!" she cried. "When my mother was dying she gave me a letter. If ever you need a friend or help, she whispered, 'go to Lady St. Maurice. This letter is to her. She will help you for my sake. Uncle, fate is on our side. Just before I came to you I wrote to Lady St. Maurice. I told her that I was unhappy in my life, and I wished for a situation as a governess. I sent her my mother's letter.'

"And she replied?"

"Yes. She offered me a home. If I wished I could teach her little girl."

Her voice was trembling, and her eyes, dry and brilliant, were fixed upon him. He was sitting upright in bed, leaning a little forward toward her, and the sunbeam which had stolen in through the parted curtains fell upon his white corpse-like face. A strange look was in his eyes; his fingers clutched the bedclothes nervously.

"You will go?" he asked hoarsely.

"You will go to Lady St. Maurice?"

An answering light shone back from her eyes. She was suddenly pale to the lips. Her voice was hushed as though in fear, but it was firm.

"Yes, I shall go. To-night I shall accept her offer."

## PART III

"Mother, don't you think that Miss Briscoe is a very strange girl?"

Lady St. Maurice looked up from her work quickly. Nine o'clock was just striking, and her son only a moment before had replaced his watch in his pocket with an impatient little gesture.

"Yes, I do think so," she answered quietly. "I think her very strange indeed. Why do you ask me?"

He shrugged his shoulders.

"Oh, I don't know exactly. It seems odd that she should want to spend all her evenings alone, and that she should have so many long letters to write. Do you think that she quite understands that you would like her to come down with us?"

"I am quite sure that she does, Lumley. I even objected to having her come here as a governess at all. Her mother was a dear friend of mine many years ago, and I told Margharita from the first that I would rather have her here as my daughter. She would have been very welcome to a home with us. It was only her pride which made her insist upon coming as Grace's governess, and I suppose it is the same feeling which prompts her to keep herself so much aloof from us. I am sorry, but I can do no more than I have done toward making her see things differently."

Lord Lumley nodded about for a minute or two on the hearthrug. There was a certain reserve in his mother's manner which made the last which he had set himself more difficult even than it would have been under ordinary circumstances. Besides, he felt that from her low seat she was watching him intently, and the knowledge did not tend toward settling him more at his ease.

"You loved her mother, then?"

"I did. She was my dearest friend."

"And yet—forgive me if I am wrong—but sometimes I fancy that you do not even like Miss Briscoe."

"She will not let me like or dislike her, Lumley."

He shook his head.

"It isn't that exact. I have seen you watching her sometimes—as for instance when she sang that Sicilian

song here—as though you were—well, almost afraid of her; as though there was something about her which almost repelled you."

"The Countess laid down her work, and looked steadily into the fire. There was a moment's silence.

"You have been a close watcher, Lumley."

"I admit it. But, tell me, have I not watched to some purpose. There is no mistaking the look in your face sometimes, when she comes into the room unexpectedly. If the thing were not absurd, I should say that you were afraid of her."

Lady St. Maurice held her hand to her side for a moment, as though she felt a sudden pain. She repeated her son's words without looking up at him.

"Afraid of her! No, no, Lumley, I am afraid of something else, something of which her face continually reminds me. It is the shadow of the past which seems to follow her footsteps."

A tragic note had suddenly been struck in the conversation between mother and son. Lord Lumley, who

## Will you Sell us your Recipes?

**EDWARDSBURG CROWN BRAND CORN SYRUP**  
and  
**BENSON'S GOLDEN SYRUP**  
are the purest and most delicious obtainable. Besides being perfect table Syrups they are ideal sweeteners for general baking and cooking purposes, and make excellent candy. They are full of nourishment and particularly recommended for children. BENSON'S GOLDEN is a thicker and sweeter Syrup than Crown Brand.

**CANADA CORN STARCH**  
is a happy combination of high quality and reasonable price. It is a prime favorite all over the West and is a steady seller winter and summer. It makes delicious blanc mange, custards, puddings and improves soups and sauces.

**MAZOLA**  
the economical salad and cooking oil, is used for deep frying, sautéing and shortening. It can be used over and over again for this purpose without carrying the flavor from one food to another, an economy that housewives appreciate—it is preferred by many to olive oil for making Salad Dressings.

YOUR favorite Recipe... that simple, tasty dish that your family enjoys and your friends praise! ... may be worth money.

Here is your chance to find out. The Canada Starch Company will buy practical, easily prepared and inexpensive Recipes.

Preparatory to bringing out our new Recipe Book, we will pay \$5.00 each for the best fifty Recipes received from Canadian house-wives, and \$3.00 each for the next best fifty. All Recipes must be mailed on or before May 1st, 1929.

The only conditions are: The ingredients of your Recipes must include one or more of the Famous Canada Starch Products. All measurements must be level. Use ordinary measuring cups and spoons. Besides the ingredients, give a clear outline of the method of mixing and cooking.

Send in Recipes for Desserts, Cooked Dishes, Pastries, Salads, Candy, etc. Recipes will be judged and tested by well known Canadian dietitians.

In case of duplication of the Recipes finally selected by the Judges, those received earlier will be given preference.

All Recipes submitted become the property of the Canada Starch Company and may be used as desired by them, and will not be returned.

Look over your Recipes now and forward the best to us REMEMBER—May 1st. is your last chance.

### ALBERTA SENDS TO EDUCATION MEET

Edmonton, April 6.—G. S. Lord, principal of the Edmonton Normal School; H. J. Spicer, registrar, Department of Education, and J. A. Smith, B.A., senior high school inspector, Calgary, have left for Victoria as the Department of Education's representatives at the fourth triennial conference of the National Council of Education. On Monday the conference will adjourn to Vancouver, when Hon. Perren Baker, Minister of Education, and Dr. R. C. Wallace, president of the University of Alberta, will probably be in attendance, with an outside chance of Premier J. E. Brownlee also attending.

The conference is confined to educationists from various sections of the British Empire, including not only Canada, but Great Britain, India, New Zealand and Australia.

### FLIGHT RECORD IS SHATTERED BY "WOP" MAY

All existing records for speedy travel between Edmonton and Calgary were shattered Wednesday afternoon when Captain "Wop" May covered the distance in the Lockheed Vega of the Commercial Airways in one hour and a half.

With his usual modesty, May said nothing of his feat, and it is only today that the story got out. J. Boyd McIldie and Howard Blackford, son of K. A. Blackford, M.P., were passengers on the record flight. The big cabin plane was "given the gun" in order to reach Edmonton before the threatening storm.

### ALBERTA FISHERIES

Fish to the value of \$870,428 were caught in Alberta lakes and rivers in the fiscal year ending March 31, according to statistics issued by the department of fisheries. Of this, \$729,334 represents the fish caught for marketing purposes. Whitefish headed the list with a total of 2,723,000 pounds, valued at \$350,793; trout coming next with 1,537,100 pounds valued at \$22,160. In addition to this the value of miscellaneous fish caught under commercial licenses was \$5,844.

Total number of commercial licenses issued was 1,144. Domestic licenses amounted to 286, while free permits given to Indians and halfbreeds numbered 975. Under these classes of permits 1,348,900 pounds of fish were caught to the value of \$67,449. None

of the fish was sold, however, the licenses carrying no commercial privileges.

### YOU ARE WONDERFUL IN DEATH

(By J. C. Lindberg)

You are wonderful in death! Far, far more wonderful Than when your bosom rose and fell Instinct with breath.

Sphinx-like, there you lie— All the mysteries Of all the ages yours. . . . So this it is to die.

In your presence I am bared, Silent and overawed— I who only yesterday Your inmost secrets shared.

Ah, only yesterday You were one with me; You spoke, you laughed, you sang As we of common clay.

But now . . . I stand appalled— Like one bewildered and afraid Amidst the deafening silences In an empty room enthralled.

—Literary Digest.

### EASILY GROWN ANNUALS

Even the busy person who cannot afford to potter too much around the flower garden can have a brilliant display of bloom with very little trouble. In choosing his flowers he must make sure that they require little care, not much in the way of special location or soil; that they bloom freely, and last for a long time. They must not be too fussy in the matter of watering, because the busy person has no time to spend in nursing them along during the dry weather. With these points in mind, one cannot go wrong in choosing all or some of the following: Snapdragon, Marigolds, Poppies, Annual Larkspurs, Nasturtiums, Zinnias, Scabiosa, Salpiglossia. These are all medium to large-sized plants, with the exception of nasturtiums, which can be secured either as ordinary or trailing plants. For a hot, sunny or sandy spot, Portulaca will make an excellent flower and will thrive even when neglected. It is a low, spreading sort of plant with a bright flower. Mignonette should possibly be added for fragrance sake. Provided the flowers are kept removed and the weeds kept down early in the season, all these flowers should bloom from the first of July until autumn, and with the exception of the Poppy and Portulaca all make good clipping material for decoration indoors. They can be planted in clumps or beds, depending on color and size.

### ENDORSE MUNICIPAL

(Continued from Page 1)  
tion about—the health of the mother and child.

"The boys and girls of Alberta must get an education and learn the lesson of life. When you pay your taxes to educate your child, you expect to get 100% return. If your child is not healthy, he or she is not going to be capable of getting 100% return, because the child is not capable of taking 100% advantage of the opportunity. Not until we see the child, equipped mentally and physically, have we done the greatest thing, in life. If you can give your child a healthy body, a clean and vigorous mind and education so that they can take their place in the world, you have done more than bequeathing them great riches. The finest men and women that God ever put on this earth are not those who had great wealth, but healthy bodies and great minds."

Mayor Montgomery referred to local conditions, as he saw them, and stated that the Hospital Board was strongly in favor of a new building. Through the length and breadth of this district, reports are that the municipal hospitalization idea is not favorably received and in view of this we are trying to find a way out of our difficulty. A delegation waited on Mr. Hoadley in his office, and put up the proposition of community hospitalization to him. We went up with the idea that it would be impossible to have a hospital here. Therefore we wanted some other scheme, and the scheme we had was this. Although we have a hospital here, giving good service, still it lacks in some parts, and it is a little too small, and our plan was that we would create a building fund from the grants from the three municipalities so that in a short time we would have a sum for building a hospital and we would not have to submit a vote to the ratepayers. The minister did not view our request with favor. What we wanted particularly to know is this. What can we do in the situation we are placed? Are we going to put the proposition to the people? If it is defeated, how many years before it will be re-submitted? We can follow out the line we have set out. At the end of 1929, we will have sixteen or seventeen thousand dollars in our building fund. In perhaps three years we will have enough money to build a hospital, but may want the hospital next year. A weak point in our scheme is that it is not compulsory for the municipalities to keep up the grants. It is a business proposition as far as they are concerned. I bring up these points and I would like Mr. Hoadley to give us his opinion and advise us as to what we should do."

In reply, Mr. Hoadley wanted to know that if the people of the district were not ready to organize, would they be content to pay sufficient taxes to maintain a hospital? He suggested that the municipal hospital and equipment proposition be placed. They cannot afford to turn it down. "If they do," he stated definitely, "they do not want a hospital. You have \$17,000 toward \$40,000 to put up a hospital. You only need to borrow \$23,000. This is a little more than 60 per cent as compared to the districts erecting hospitals, and it will cost no more to keep it going. You are well on the way towards a building, and under your present plan, in five years you will have all the money necessary for the purpose of building a hospital. You do not want to wait five years. Money will come in the process of time. Borrow now, build, and pay it back. Leadership is all that is wanted. I am certain as I am standing here, that the only need is co-operation, standing shoulder to shoulder, and I am convinced that you will get your scheme through. I have no doubt about the majority of the people of this district. It is only a question of carrying the information to the people in the country and letting them know what the scheme is."

Among those taking part in the discussion were Messrs. E. E. Sparks, E. R. Rasmussen, Richard Ballhorn, B. D. Howett, R. C. Young, Henry Young and others.

After discussion the meeting went unanimously on record as in favor of a municipal hospital scheme for the Municipalities of Wetaskiwin, Montgomery, Bigstone and Milled, and any other territory legitimately belonging to the Wetaskiwin district.

President Richard Ballhorn occupied the chair.

### BARBERS' PRICES IN CHICAGO

The Chicago Journeymen's barbers' union have demanded a five-day week and a wage which was announced increased from \$30 a week plus 50 per cent of the receipts over \$42, to \$35 a week and 60 per cent of receipts over \$47. The barbers have also demanded that quitting time be made 7 p.m., instead of the present 7:30 o'clock. Members of the Master Barbers' Association have declared that they cannot meet the demands unless the price of haircuts is raised to \$1.00 instead of the present 75 cents.

### SELF RESPECT

A good many young people have the idea that if they are liked by the opposite sex, they can afford to do without respect. But they do not know the social history of the race. Again and again, in its history, women have fallen low in the eyes of men, while still remaining attractive in a physical sense. In every case where that fate has befallen them, it has resulted in misery and prolonged unhappiness for the weaker sex.

# SPECIAL!

### CANADIAN PRINT

Of a fine quality cotton. Fast washable colors—good assortment of patterns.

Special **18c** a yard

### GARDENING HELPS

#### Pruning

This is the time for pruning. All of the dead canes should be removed from the raspberry patch, as well as the spindly ones among the new growth. Some of the older wood should be cut away from the gooseberries and currants. In handling fruit trees, open up to let in sunlight and air, and cut out branches that rub against one another and remove weak crotches. In pruning roses one should remember that these produce flowers on the new wood of the season, and to produce good flowers one must have strong growth of wood. Trim back to a few good branches, removing all weak stems. Pruning of the hybrid perpetuals should be done early in the spring, just before the new growth is appearing. Cut each cane back to six or eight buds from the bud, always cutting just above a bud pointing outward. The weaker growing hybrid teas are pruned more sparingly. If size and high quality of flowers are sought, all but five shoots are cut to the base, and each of these remaining five is cut back to three or four buds.

#### Testing the Soil

Serious results are sure to follow the working of the soil too soon. Let the ground become dry, if necessary work off your fever on indoor planting or indoor plantings. It is a simple thing to test whether the soil is ripe for work. All that is necessary is to take up a handful and squeeze. If it compacts into a lump in the hand, it is too wet to work, but if, on the contrary, it crumbles when squeezed it is probably in just the right condition for working.

#### Sweet Peas

Sweet peas must be planted early or the results will be disappointing. In some parts of the country the vines are probably up by now. If the season is later than usual, do not wait until past the usual planting time, but secure some old berry boxes or cardboard boxes bought for this purpose from any seed supply house and plant in these. Some people have used half egg-shells with good results. Fill with fine soil, plant your sweet peas in a sunny window. When the ground is fit for working outside, take these boxes or egg shells, gently remove the bottom without disturbing the roots inside and plant in the open. The soil, of course, must not be disturbed. When transplanting, place in a shallow trench and heap soil well up around them so as to develop a sturdy root growth. It may be necessary to protect with little paper collars from cut-worms. A few early hills of corn may be started in the same manner, the plants being started indoors where they are protected from the frost, and transplanted outside later without disturbing the bottom of the box—the frequent watering will have caused the soil to stick well together so that there is no shaking of the roots, and plant.

#### Beets and Carrots

No vegetable garden, of course, is complete without a few rows of beets and carrots. But we do not mean ordinary beets and carrots. Nowadays, one plants with definite purposes in view. Thus, for canning and salads, where the whole beet is used, small round beets are considered the best, and for early carrots, the best used when they are as big as your thumb, shorter types of this veget-

able are advisable. Both can be sown just as soon as the ground is ready, and further planting for later use put in at intervals of two weeks up to the first of July. They should be sown in rows about two feet apart, or wider where horse cultivation is used, and thinned to about an inch and a half apart in the row. Side-dressing of nitrate of soda is advised during the early growth of these vegetables. Take out every other plant when they have grown a little, using the beets, tops and all, as greens, while the carrots may be used in the ordinary way. Later on, again take out every other root and still later every other one

again which will give the vegetables a chance to reach full development. Soaking the seed overnight before planting will hasten germination, and in planting do not cover with more than about half an inch of soil. Later planting can often follow early crops of lettuce, spinach and radish. Do not be afraid to grow plenty of beets and carrots, as what cannot be used during the summer and fall may be stored away for the winter, and the larger corner ones will be relished by the chickens, rabbits or other livestock.

Girl Assistant: "I'm not sure that we have it, sir; but it sounds to me like the fiction department."

# SPORTS

A WETASKIWIN CHAMPION

In the November issue of The Canadian Athlete, an article appeared from the pen of Sgt. John Leslie, of Edmonton, Alberta, secretary of the Edmonton Athletic Union of Canada, chronicling the introduction of track and field athletics among the younger set of Wetaskiwin, resultant upon which the holding of the Alberta Junior Track and Field Championships in that community proved to be by far the most successful meet in every way of any junior championships ever held in the province. Little, however, did the citizens realize at the time that they had a coming provincial champion in their midst. Since taking up residence in Wetaskiwin a couple of years ago Byron W. Bellamy, a past president of the Alberta branch, and a Vice-President of the Amateur Athletic Union of Canada, took under his wing a number of useful athletes of both sexes in an effort to assist them in their athletic aspirations on track and field. Among these was a Miss Norma Chiddy, who had, however, at the time of the Jr. Championships, entered the 18-year mark and was therefore ineligible to competition in that class. With a hunch that Miss Norma had a brilliant athletic future before her, it came to pass that B. W. and his protegee invaded the mountains in search of honors. There were thousands upon thousands of spectators at the Alberta Senior Track and Field Championships (men and women) held in Banff in connection with the annual Highland gathering (which, by the way, will in all probability be the circumstances under which the Dominion Track and Field Championships will be held this year). There were four women's events on the programme, and Miss Norma Chiddy celebrated her track and field debut by cleaning up the women's all-round championship of the province, winning three firsts and one second in the four scheduled events. But this was not all. In these accomplishments she equalled the provincial record of 12 seconds flat for the hundred yards and left her field of competitors in the distance to negotiate the two-twenty event in a small circular course in twenty-eight and four-fifths seconds, shattering the Alberta record. All this would have never happened if a concerted effort had not been made some months previous to encourage track and field athletics through the institution of the Wetaskiwin Sports Association. While through the efforts of the Ontario Athletic Commission, the smaller communities have received great stimulus in this direction during the past several years, this benefit is not enjoyed by other provinces, and there is no doubt but that Wetaskiwin's experience but emphasizes the fact that there is much athletic talent throughout the broad expanse of the Dominion yet to be unearthed. Great as has been the achievements of Canadian girls on foreign fields during the past few months, it is withal unfortunate that there are not many more of the lesser urban centres imbued with the spirit that makes champions.—The Canadian Athlete.

### TENDERS FOR COAL

Sealed tenders addressed to the Purchasing Agent, Department of Public Works, Ottawa, will be received at his office until 12 o'clock noon (daylight saving), Wednesday, May 1, 1929, for the supply of coal for the Dominion Buildings and Experimental Farms and Stations, throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from W. Davison, Chief Purchasing Agent, Department of Public Works, Ottawa; H. E. Matthews, District Resident Architect, Winnipeg, Man.; G. J. Stephenson, District Resident Architect, Regina, Sask.; Chas. Sellens, District Resident Architect, Calgary, Alta.; and J. G. Brown, District Resident Architect, Victoria, B.C.

Tenders will not be considered unless made on the above mentioned forms.

The right to demand from the successful tenderer a deposit, not exceeding 10 per cent of the amount of the tender, to secure the proper fulfilment of the contract, is reserved.

By order,  
S. E. O'BRIEN,  
Secretary,  
Department of Public Works,  
Ottawa, April 5, 1929.

### TENDERS WANTED

Tenders wanted by the Trustees of the Roseland S.D. No. 555, to raise ceiling 3 feet, rebuild foundation, repair furnace and ventilation, paint building and out-buildings. For full particulars apply to the undersigned, Bidder to deposit with Secretary, Treasurer per cent of tender as a guarantee, which will be returned if bid is rejected. Lowest or any tender not necessarily accepted. All bids to be in by May 10th.

FRED FREEMAN, Sec.-Treas.,  
3-3th Wynne, Alta.

Use The Times Want Ad. columns.

# Neighborhood NEWS

## CHESTERWOLD

The Junior U.F.A. entertainment and dance on Easter Monday was the outstanding event of the season for this district. The program, consisting of great variety, did credit to those who took part, especially the "burlesque artists" and Willie Gunther with his saxophone solos. Following the entertainment, Miss Archibald gave an interesting address on certain phases of Junior U.F.A. work, after which the dance started in full swing.

## GRAND PRAIRIE GIRL WINS NORTHERN HONORS IN ORATORY SEMI-FINAL

Edmonton, April 5.—Gwendolyn Gant, 17, of Grande Prairie, will be northern Alberta's representative in the provincial semi-finals of the Dominion-wide oratorical contest, sponsored in Alberta by The Calgary Herald and Edmonton Journal. Miss Gant was chosen last night from eleven other clever district candidates. The judges were Mrs. Emily Murphy, Dr. W. G. Hardy and Professor A. E. Ottewill. The grand finalists were placed as follows:

1. Gwendolyn Gant, Grande Prairie.
2. T. H. McGill, Lacombe.
3. O. H. Peterson, Sedgewick.
4. Fred Gabert, Concordia Lutheran College, Edmonton.
5. Caroline Green, Vermilion.

Hon. mention—Gladys Lee, Stettler. Ten dollar gold pieces in pretty velvet-lined cases were presented by the Journal to each of the candidates. Walter MacDonald, of Red Deer, was the winner of the southern Alberta final at First Baptist church, Calgary on Thursday evening.

## CAMROSE DRAWS LEGION MEETING

Camrose will this year be the scene of the annual provincial convention of the Alberta command of the Canadian Legion, according to an announcement just made by A. Wake-lynn, provincial secretary. The dates have been set for May 16 and 17.

The principal subjects listed for discussion at the convention are service to the disabled soldier, widow and dependents; the Alberta canteen funds; soldier settlement and revaluation of their lands; extension of time for ex-service men to take up government insurance and a general program of work for the new year.

A resolution will be brought in urging that the Federal appeal board sit twice a year to consider pension cases.

In the belief that Canadian school text books do not contain enough history of the part Canadian soldiers played in the Great War, means of remedying this will be discussed.

## NEW FACTS ABOUT CATS

This composition on "Cats" was handed in by a fourth grade boy in a Little Rock school. "Cats that's made for little boys to maul and tease is called Manxtons cats. Some cats is recognized by how quiet their paws is and these is named Persian cats. The cats what has very bad temper is called Angoric cats. And cats with deep feelin's is called Feline cats. I don't like cats."

OUR FANCY SIDE DRAPERIES will please you with their beautiful color combinations and newest designs. Call and we will be pleased to show you.

# McCormick-Deering News

"Good Equipment Makes a Good Farmer Better"

Published by N. OSWALD  
Wetaskiwin Farm Equipment Man

Watch for the "News" each week. Suggestions and news items invited.

N. OSWALD, Editor.

In just a little while some of you folks will be putting the ice-box in service. When you do, put a can or dish of charcoal in the ice-box and that charcoal will absorb all the odor of vegetables and thus keep the milk from tasting of onions, the butter from absorbing odors, etc. It's really a good stunt.

It is no longer a question of whether you can afford to buy a McCormick-Deering Tractor. The problem is—"Can you afford to do without it?"

Len Keg, brother of Nall, says a harber is a brilliant conversationalist who occasionally shaves and cuts hair.

Did you know that the McCormick-Deering 10-20 and 15-30 Tractors have main frames consisting of a single casting—no rivets or bolts to work loose or break—no joints to leak—frames which keep oil in and dirt out, and are strong and rigid?

A baby is a nocturnal animal to which everyone in the Pullman is willing to give a wide berth.

Did you know that all McCormick-Deering Tractors have removable cylinder sleeves made of exceptionally hard cast iron of uniform thickness, making it possible to replace one or all of them in three or four hours, at a cost far below that of a rebuilding job, which construction means a longer-lived tractor with low repair charges?

Little Johnnie to teacher: "Can anybody be punished for something he didn't do?"  
Teacher: "Why, certainly not, Johnnie."  
Johnnie: "That's fine. I haven't done my arithmetic."

Can you suspend two spheres in such a manner that a straight line cannot be drawn between them, from center to center? Of course not. But you can suspend three so that a straight line will pass through the exact center of each? Think this over and you will see the reason for the two-bearing crankshafts in McCormick-Deering Tractors, which have eliminated broken shafts and main bearing troubles.

When you engine knock it may be firing too soon. When your employee knocks, he hasn't been fired soon enough.

The list of McCormick-Deering Tractor owners in this territory reads like a telephone directory. If we printed them all it would fill this corner. The list is growing every week, too. Frank Bullhorn was the last chap to get on. Who's next?

A citizen of the United States is a man who drops his "g" and then laughs at the Englishman for dropping his "h."

We sell McCormick-Deering Tractors because they need so little service supervision. Then we go further and protect our customers by providing adequate service facilities right here in our store. Come in and let us show you our tractor service department next time you're in town.

# MEN'S SUITS

You will be glad to know Mr. Taylor, the FASHION CRAFT MAN, will be at your service in our store on Friday, April 19. He is certainly a specialist in made-to-measure clothes. Have him measure you for your new spring suit and be correctly dressed. Priced from

\$29.50 to 39.50

## STATE MEDICINE ESSENTIAL

SAYS MINISTER OF HEALTH

"Not only from the standpoint of humanity but also from the standpoint of the state and the individual is it important that the children of our nation must receive the medical attention necessary to give them the greatest amount of health with which to provide themselves for life in the adult stage," declared the Hon. George Hoadley, Minister of Health, before the Council of Child Welfare, Thursday afternoon.

Mr. Hoadley indicated briefly some ideas as to how this state service would be given to people who, under

ordinary conditions, were unable to pay for themselves.

"State medicine is a bugaboo which is worrying some people unduly," he continued. "Over 53 per cent of the medical profession in Great Britain work for the state in some way or other. The institution of state medicine would not deprive doctors of their professions."

"If we can keep our present ideals of health before us in this province, there is no doubt that Alberta is going in time to make a greater contribution to the future development of this nation than any province in the Federation," was the statement made by the

Hon. R. G. Reid, Minister of Public Works and Provincial Treasurer, who followed Mr. Hoadley.

"We are raising the finest young people in the world today in this province," he continued. "We have much to rejoice in what we have been able to accomplish already. We have an ideal climate for the raising of a virile healthy stock of young people, and we are assisted in health matters by government activities, together with the work of such fine organizations as the Child Welfare Council. I feel that a great progress is being made towards the building of good citizens for the future."—Calgary Albertan.

## DRIARD CABARET

Saturday, April 13

With CLIFF TIPP  
AND HIS  
ORCHESTRA

The dancing public appreciate their music, coupled with the charming surroundings and the excellent floor. A few hours dancing is a pleasure.

From 9 to 12 o'clock

ALBERTA SENDS TO  
EDUCATION MEET

Edmonton, April 6.—G. S. Lord, principal of the Edmonton Normal School; H. J. Spicer, registrar, Department of Education, and J. A. Smith, B.A., senior high school inspector, Calgary, have left for Victoria as the Department of Education's representatives at the fourth triennial conference of the National Council of Education.

On Monday the conference will adjourn to Vancouver, when Hon. Perron Baker, Minister of Education, and Dr. R. C. Wallace, president of the University of Alberta, will probably be in attendance, with an outside chance of Premier J. E. Brownlee also attending.

The conference is confined to educationalists from various sections of the British Empire, including not only Canada, but Great Britain, India, New Zealand and Australia.

FLIGHT RECORD IS  
SHATTERED BY "WOP" MAY

All existing records for speedy travel between Edmonton and Calgary were shattered Wednesday afternoon when Captain "Wop" May covered the distance in the Lockheed Vega of the Commercial Airways in one hour and a half.

With his usual modesty, May said nothing of his feat, and it is only today that the story got out. J. Boyd McBride and Howard Blatchford, son of K. A. Blatchford, M.P., were passengers on the record flight. The big cabin plane was "given the gun" in order to reach Edmonton before the threatening storm.

## ALBERTA FISHERIES

\$870,428 in 1928

Fish to the value of \$870,428 were caught in Alberta lakes and rivers in the fiscal year ending March 31, according to statistics issued by the department of fisheries. Of this, \$729,334 represents the fish caught for marketing purposes. Whitefish headed the list with a total of 2,723,000 pounds, valued at \$350,793; trout coming next with 1,937,100 pounds valued at \$92,160. In addition to this the value of miscellaneous fish caught under commercial licenses was \$5,844.

Total number of commercial licenses issued was 1,144. Domestic licenses amounted to 286, while free permits given to Indians and halfbreeds numbered 976. Under these classes of permits 1,348,900 pounds of fish were caught to the value of \$67,449. None

of the fish was sold, however, the licenses carrying no commercial privileges.

## YOU ARE WONDERFUL IN DEATH

(By J. C. Lindberg)

You are wonderful in death!

Far, far more wonderful Than when your bloom rose and fell Instantly with breath.

Sphinx-like, there you lie—

All the mysteries

Of all the ages yours. . .

So this it is to die.

In your presence I am bared,

Silent and overawed—

I who only yesterday

Your inmost secrets shared.

Ah, only yesterday

You were one with me;

You spoke, you laughed, you sang

As we of common clay.

But now . . . I stand appalled—

Like one bewildered and afraid

Amidst the deafening silences

In an empty room enthralled.

—Literary Digest.

## EASILY GROWN ANNUALS

Even the busy person who cannot afford to potter too much around the flower garden can have a brilliant display of bloom with very little trouble. In choosing his flowers he must make sure that they require little care, not much in the way of special location or soil; that they bloom freely, and last for a long time. They must not be too fussy in the matter of watering, because the busy person has no time to spend in nursing them along during the dry weather. With these points in mind, one cannot go wrong in choosing all or some of the following: Snapdragon, Nasturtium, Poppies, Annual Larkspurs, Nasturtiums, Zinnias, Scabiosa, Salpiglossis. These are all medium to large-sized plants, with the exception of nasturtiums, which can be secured either as ordinary or trailing plants. For a hot, sunny or sandy spot, Portulaca will make an excellent flower and will thrive even when neglected. It is a low, spreading sort of plant with a bright flower. Mignonette should possibly be added for fragrance sake. Provided the flowers are kept removed and the weeds kept down early in the season, all these flowers should bloom from the first of July until autumn, and with the exception of the Poppy and Portulaca all make good clipping material for decoration indoors. They can be planted in clumps or beds, depending on color and size.

## ENDORSE MUNICIPAL

(Continued from Page 1)

tion about—the health of the mother and child.

"The boys and girls of Alberta must get an education and learn the lesson of life. When you pay your taxes to educate your child, you expect to get 100% return. If your child is not healthy, he or she is not going to be capable of getting 100% return, because the child is not capable of taking 100% advantage of the opportunity. Not until we see the child, equipped mentally and physically, have we done the greatest thing in life. If you can give your child a healthy body, a clean and vigorous mind and education so that they can take their place in the world, you have done more than bequeathing them great riches. The finest men and women that God ever put on this earth are not those who had great wealth, but healthy bodies and great minds."

Mayor Montgomery referred to local conditions, as he saw them, and stated that the Hospital Board was strongly in favor of a new building. Through the length and breadth of this district, reports are that the municipal hospitalization idea is not favorably received and in view of this are trying to find a way out of our difficulty. A delegation waited on Mr. Hoadley in his office, and put up the proposition of community hospitalization to him. We went up with the idea that it would be impossible to have a hospital here. Therefore we wanted some other scheme, and the scheme we had was this. Although we have a hospital here, giving good service, still it lacks in some parts, and it is a little too small, and our plan was that we would create a building fund from the grants from the three municipalities so that in a short time we would have a sum for building a hospital and we would not have to submit a vote to the ratepayers. The minister did not view our request with favor. What we wanted particularly to know is this, What can we do in the situation we are placed? Are we going to put the proposition to the people? If it is defeated, how many years before it will be re-submitted? We can follow out the line we have set out. At the end of 1929, we will have sixteen or seventeen thousand dollars in our building fund. In perhaps three years we will have enough money to build a hospital, but may want the hospital next year. A weak point in our scheme is that it is not compulsory for the municipalities to keep up the grants. It is a business proposition as far as they are concerned. I bring up these points and I would like Mr. Hoadley to give us his opinion and advise us as to what we should do.

In reply, Mr. Hoadley wanted to know that if the people of the district were not ready to organize, would they be content to pay sufficient taxes to maintain a hospital? He suggested that the municipal hospital and equipment proposition be placed before the people and to turn it down. "If they do," he stated definitely, "they do not want a hospital. You have \$17,000 toward \$40,000 to put up a hospital. You only need to borrow \$23,000. This is a little more than 60 per cent as compared to the districts erecting hospitals, and it will cost no more to keep it going. You are well on the way towards a building, and under your present plan, in five years you will have all the money necessary for the purpose of building a hospital. You do not want to wait five years. Money will come in the process of time. Borrow now, build, and pay it back. Leadership is all that is wanted. I am certain as I am standing here, that the only need is co-operation, standing shoulder to shoulder, and I am convinced that you will get your scheme through. I have no doubt about the majority of the people of this district. It is only a question of carrying the information to the people in the country and letting them know what the scheme is."

Among those taking part in the discussion were Messrs. E. E. Sparks, E. R. Rasmussen, Richard Ballhorn, B. D. Howatt, R. C. Young, Henry Young and others.

After discussion the meeting went unanimously on record as in favor of a municipal hospital scheme for the Municipalities of Wetaskiwin, Montgomery, Digswade and Hinton, and any other territory legitimately belonging to the Wetaskiwin district.

President Richard Ballhorn occupied the chair.

The Chicago Journeymen's barbers' union have demanded a five-day week and a wage which it was announced increased from \$30 a week plus 60 per cent of the receipts over \$42, to \$35 a week and 60 per cent of receipts over \$47. The barbers have also demanded that quitting time be made 7 p.m., instead of the present 7:30 o'clock. Members of the Master Barbers' Association have declared that they cannot meet the demands unless the price of haircuts is raised to \$1.00 instead of the present 75 cents.

## BARBERS' PRICES IN CHICAGO

A good many young people have the idea that if they are liked by the opposite sex, they can afford to do without respect. But they do not know the social history of the race. Again and again, in that history, women have fallen low in the eyes of men, while still remaining attractive in a physical sense. In every case where that fate has befallen them, it has resulted in misery and prolonged unhappiness for the weaker sex.

## SELF RESPECT

Serious results are sure to follow the working of the soil too soon. Let the ground become dry, if necessary work off your fever on indoor planting or indoor planings. It is a simple thing to test whether the soil is ready or not. All that is necessary is to take up a handful and squeeze. If it compacts into a lump in the hand, it is too wet to work, but, on the contrary, it crumbles when squeezed it is probably in just the right condition for working.

## GARDENING HELPS

## Pruning

This is the time for pruning. All of the dead canes should be removed from the raspberry patch, as well as the spindly ones among the new growth. Some of the older wood should be cut away from the gooseberries and currants. In handling fruit trees, open up to let in sunlight and air, and cut out branches that rub against one another and remove weak crotches. In pruning roses one should remember that these produce flowers on the new wood of the season, and to produce good flowers one must have strong growth of wood. Trim back a few good branches, removing all weak stems. Pruning of the hybrid perpetuals should be done early in the spring, just before the new growth is appearing. Cut each cane back to six or eight buds from the ground, always cutting just above a bud pointing outward. The weaker growing hybrid teas are pruned more severely. If size and high quality of flowers are sought, all but five shoots are cut to the base, and each of these remaining five is cut back to three or four buds.

## Testing the Soil

Serious results are sure to follow the working of the soil too soon. Let the ground become dry, if necessary work off your fever on indoor planting or indoor planings. It is a simple thing to test whether the soil is ready or not. All that is necessary is to take up a handful and squeeze. If it compacts into a lump in the hand, it is too wet to work, but, on the contrary, it crumbles when squeezed it is probably in just the right condition for working.

## Sweet Peas

Sweet peas must be planted early or the results will be disappointing. In some parts of the country the vines are probably up by now. If the season is later than usual, do not wait until past the usual planting time, but secure some old berry boxes or cardboard boxes bought for this purpose from any seed supply house and plant in these. Some people have used half egg-shells with good results. Fill with fine soil, plant your sweet peas in a sunny window. When the ground is fit for working outside, take these boxes or egg shells, gently remove the bottom without disturbing the roots inside and plant in the open. The soil, of course, must not be disturbed. When transplanting, place in a shallow trench and heap soil well up around them so as to develop a sturdy root growth. It may be necessary to protect with little paper collars from cut-worms. A few early hills of corn may be started in the same manner, the plants being started indoors where they are protected from the frost, and transplanted outside later without disturbing the bottom of the box—the frequent watering will have caused the soil to stick well together so that there is no shaking of the roots, and plant.

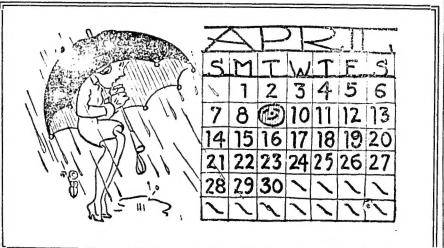

## Beets and Carrots

No vegetable garden, of course, is complete without a few rows of beets and carrots. But we do not mean ordinary beets and carrots. Nowadays, one plants with definite purposes in view. Thus, for canning and salads, where the whole beet is used, small round beets are considered the best, and for early carrots, which may be used when they are as big as your thumb, shorter types of these veget-

able are advisable. Both can be sown just as soon as the ground is ready, and further planting for later use put in at intervals of two weeks up to the first of July. They should be sown in rows about two feet apart, or wider where horse cultivation is used, and thinned to about an inch and a half apart in the row. Side-dressing of nitrate of soda is advised during the early growth of these vegetables. Take out every other plant when they have grown a little, using the beets, tops and all, as greens, while the carrots may be used in the ordinary way. Later on, again take out every other root and still later every other one.

again which will give the vegetables a chance to reach full development. Soaking the seed overnight before planting will hasten germination, and in planting do not cover with more than about half an inch of soil. Later planting can often follow early crops of lettuce, spinach and radish. Do not be afraid to grow plenty of beets and carrots, as what cannot be used during the summer and fall may be stored away for the winter, and the larger coarser ones will be relished by the chickens, rabbits or other livestock.

## McCormick-Deering News

"Good Equipment Makes a Good Farmer Better"  
 Published by N. OSWALD  
 Wetaskiwin Farm Equipment Man

Watch for the "News" each week. Suggestions and news items invited.  
**N. OSWALD, Editor.**

In just a little while some of you folks will be putting the ice-box in service. When you do, put a can of dish or charcoal in the ice-box and that charcoal will absorb all the odor of vegetables and thus keep the milk from tasting of onions, the butter from absorbing odors, etc. It's really a good stunt.

It is no longer a question of whether you can afford to buy a McCormick-Deering Tractor. The problem is—"Can you afford to do without it?"

Lem Keg, brother of Neil, says a barber is a brilliant conversationist who occasionally shaves and cuts hair.

Did you know that the McCormick-Deering 10-20 and 15-30 Tractors have main frames consisting of a single casting—no rivets or bolts to work loose or break—no joints to leak—frames which keep oil in and dirt out, and are strong and rigid?

A baby is a nocturnal animal to which everyone in the Pullman is willing to give a wide berth.

Did you know that all McCormick-Deering Tractor engines have removable cylinder sleeves made of exceptionally hard cast iron of uniform thickness, making it possible to replace one or all of them in three or four hours, at a cost far below that of a rebuilding job, which construction means a longer-lived tractor with low repair charges?

Little Johnnie to teacher: "Can anybody be punished for something he didn't do?"  
 Teacher: "Why, certainly not, Johnnie."  
 Johnnie: "That's fine. I haven't done my arithmetic."

Can you suppose two spheres in contact a manner that a straight line cannot be drawn between them, from center to center? Of course not. But you can suspend three so that a straight line will pass through the exact center of each? Think this over and you will see the reason for the two-bearing crankshafts in McCormick-Deering Tractors, which have eliminated broken shafts and main bearing troubles.

When you engine knock it may be firing too soon. When your employee knocks, he hasn't been fired soon enough.

The list of McCormick-Deering Tractor owners in this trade territory reads like a telephone directory. If we printed them all, it would fill this corner. The list is growing every week, too. Frank Ballhorn was the last chap to get in. Who's next?

A citizen of the United States is a man who drops his "g" and then laughs at the Englishman for dropping his "h".

We sell McCormick-Deering Tractors because they need so little service supervision. Two men go further and protect our customers by providing adequate service facilities right here in our store. Come in and let us show you our tractor service department next time you're in town.

## SPORTS

A WETASKIWIN CHAMPION

In the November issue of The Canadian Athlete, an article appeared from the pen of Sgt. John Leslie, of Edmonton, Alberta, secretary of the Amateur Athletic Union of Canada, chronicling the introduction of track and field athletics among the younger set of Wetaskiwin, resultant upon which the holding of the Alberta Junior Track and Field championships in that community proved to be by far the most successful meet in every way in the province. Little, however, did the citizens realize at the time that they had a coming provincial champion in their midst. Since taking up residence in Wetaskiwin a couple of years ago Byron W. Bellamy, a past president of the Alberta branch, and a Vice-President of the Amateur Athletic Union of Canada, took under his wing a number of useful athletes of both sexes in an effort to assist them in their athletic aspirations on track and field. Among these was a Miss Norma Chiddy, who had, however, at the time of the Jr. Championships, entered the 18-year mark and was therefore ineligible to competition in that class. With a hunch that Miss Norma had a brilliant athletic future before her, it came to pass that B. W. and his protegee invaded the mountains in search of honors. There were thousands upon thousands of spectators at the Alberta Senior Track and Field Championships (men and women) held in Banff in connection with the annual Highland gathering (which, by the way, will in all probability be the circumstances under which the Dominion Track and Field Championships will be held this year). There were four women's events on the programme, and Miss Norma Chiddy celebrated her track and field debut by cleaning up the women's all-around championship of the province, winning three firsts and one second in the four scheduled events. But this was not all. In these accomplishments she equalled the provincial record of 12 seconds flat for the hundred yards and left her field of competitors in the distance to negotiate the two-hundred event in a small circular course in twenty-eight and four-fifths seconds, shattering the Alberta record. All this would have never happened if a concerted effort had not been made some months previous to encourage track and field athletics through the institution of the Wetaskiwin Sports Association. While through the efforts of the Ontario Athletic Commission the smaller communities have received great stimulus in this direction during the past several years, this benefit is not enjoyed by other provinces, and there is no doubt but that Wetaskiwin's experience had emphasized the fact that there is much athletic talent throughout the broad expanse of the Dominion yet to be unearthed. Great credit has been the achievements of Canadian girls on foreign fields during the past few months, it is withal unfortunate that there are not many more of the lesser urban centers imbued with the spirit that makes champions.—The Canadian Athlete.

**FOR SALE**—60 head sheep, in good condition. For particulars apply to Phone R1211, Wetaskiwin. 2-31

### TENDERS FOR COAL

Sealed tenders addressed to the Purchasing Agent, Department of Public Works, Ottawa, will be received at his office until 12 o'clock noon (daylight saving), Wednesday, May 1, 1929, for the supply of coal for the Dominion Buildings and Experimental Farms and Stations, throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from G. W. Dawson, Chief Purchasing Agent, Department of Public Works, Ottawa; H. E. Matthews, District Resident Architect, Winnipeg, Man.; G. J. Stephenson, District Resident Architect, Regina, Sask.; Chas. Selens, District Resident Architect, Calgary, Alta.; and J. G. Brown, District Resident Architect, Victoria, B.C.

Tenders will not be considered unless made on the above mentioned forms.

The right to demand from the successful tenderer a deposit, not exceeding 10 per cent of the amount of the tender, to secure the proper fulfillment of the contract, is reserved.

By order,  
**S. E. O'BRIEN,** Secretary,  
 Department of Public Works,  
 Ottawa, April 5, 1929. 3-2th

### TENDERS WANTED

Tenders wanted by the Trustees of the Roseland S.D. No. 585, to erect a 2 feet, rebuilt foundation, repair furnace and ventilation, building and out-buildings. For full particulars apply to the undersigned. Bidder to deposit with Secretary-Treasurer 5 per cent of tender as a guarantee, which will be returned if bid is rejected. Lowest or any tender not in by May 10th.

**FRED FREEMAN,** Sec.-Treas.,  
 3-3th Gwynne, Alta.  
 Use The Times Want Ad. columns.

## Neighborhood NEWS

### CHESTERWOLD

The Junior U.F.A. entertainment and dance on Easter Monday was the outstanding event of the season for this district. The program, consisting of great variety, did credit to those who took part, especially the "burnt cork artists" and Willo Gunther with his saxophone solos. Following the entertainment, Miss Archibald gave an interesting address on certain phases of Junior U.F.A. work, after which the dance started in full swing.

### GRAND PRAIRIE GIRL WINS NORTH-WEST HONORS IN ORATORY SEMI-FINAL

Edmonton, April 5. — Gwendolyn Gant, 17, of Grande Prairie, will be northern Alberta's representative in the provincial semi-finals of the Dominion-wide oratorical contest, sponsored in Alberta by The Calgary Herald and Edmonton Journal. Miss Gant was chosen last night from eleven other clever district candidates.

The judges were Mrs. Emily Murphy, Dr. W. G. Hardy and Professor A. E. Ottewill. The candidates were placed as follows:  
 1. Gwendolyn Gant, Grande Prairie.  
 2. T. H. McGillivray, Lacombe.  
 3. O. H. Peterson, Sedgewick.  
 4. Fred Gabert, Concordia Lutheran College, Edmonton.  
 5. Caroline Green, Vermilion.  
 Hon. mention—Gladys Lee, Stettler.  
 Ten dollar gold pieces in pretty velvet-lined cases were presented by the Journal to each of the candidates. Walter MacDonald, of Red Deer, was the winner of the southern Alberta final at First Baptist church, Calgary on Thursday evening.

### CAMROSE DRAWS LEGION MEETING

Camrose will this year be the scene of the annual provincial convention of the Alberta command of the Canadian Legion, according to an announcement just made by A. Wake-lyn, provincial secretary. The dates have been set as May 16 and 17.

The principal subjects listed for discussion at the convention are service to the disabled soldier, widow and dependents; the Alberta canteen funds; soldier settlement and revaluation of their lands; extension of time for ex-service men to take up government insurance and a general program of work for the new year.

A resolution will be brought in urging that the Federal appeal board sit twice a year to consider pension cases.

In the belief that Canadian school text books do not contain enough history of the part Canadian soldiers played in the Great War, means of remedying this will be discussed.

### NEW FACTS ABOUT CATS

This composition on "Cats" was handed in by a fourth grade boy in a Little Rock school: "Cats that's made for little boys to maul and tease is called Manx cats. Some cats is recognized by how quiet their purrs is and these is named Pussian cats. The cats what has very bad temper is called Angorie cats. And cats with deep feelin's is called Feline cats. I don't like cats."

One might add that golf is a game in which the ball lies everywhere and the player always.

### STATE MEDICINE ESSENTIAL

**SAYS MINISTER OF HEALTH**  
 "Not only from the standpoint of humanity but also from the standpoint of the state and the individual is it important that the children of our nation must receive the medical attention necessary to give them the greatest amount of health with which to provide themselves for life in the adult stage," declared the Hon. George Hoadley, Minister of Health, before the Council of Child Welfare, Thursday afternoon.

Mr. Hoadley indicated briefly some of the reasons why the state would be given to people who, under ordinary conditions, were unable to pay for it themselves.

"State medicine is a business which follows Mr. Hoadley. "We are raising the finest young people in the world today in this province," he continued. "We have much to rejoice in what we have been able to accomplish already. We have an ideal climate for the raising of a virile healthy stock of young people, and we are assisted in health matters by government activities, together with the work of such fine organizations as the Child Welfare Council. I feel that a great progress is being made towards the building of good citizens for the future."—Calgary Albertan.

### BUCK LAKE DISTRICT

#### MAUD POCHA

Death has again entered the home of Mr. and Mrs. Edwin Pocha and taken another member of their family.

On Thursday March 28th, Maud Pocha passed away after a lingering illness of tuberculosis at the age of eighteen years and six months. She was born near Hoadley and has lived in and about the Buck Lake district all her life; she was a general favorite with everyone. The funeral service was held in the big dining room of the Bear Creek Mills, where Mr. Pocha is an employee.

Girl friends of Maud Pocha carried the beautiful casket into the dining room, where Mr. T. Turnbull conducted a very impressive service, also at the Maywood cemetery, where she was buried beside her brother Dick, who died January 14th of that dread disease, the flu, at the age of 21.

### Has Your Horse Swollen Tendons?

Absorbine reduces inflammation, swells tendons, ligaments or muscles, and it stops lameness and pain from a splint, side bone or bone spavin. No blistering, no hair removed, and the horse can be worked during treatment. \$1.50 at drug stores or general merchants. A booklet on the horse sent free. 77 W. F. Young, Inc., Lyman Bldg., Montreal

thought they would ever stay on this side of the valley of death, Ruth gave her heart to the Lord, and from then on lived a consecrated life for her Lord. Some time later, after Ruth and her mother were again restored to health, a returned missionary from India, by the name of Mrs. Franklin, gave a missionary lecture on "The Road of the Foreign Fields." While at this service, Ruth felt the call of the Lord and said "Yes" to Him.

In the late fall of 1919, she went to Moody Bible Institute, Chicago, to prepare for her life's work. She remained there for about a year, when she was suddenly called home due to her mother's illness. As sickness continued, Ruth was unable to go back to Moody and took up a position as stenographer in Wetaskiwin.

In December, 1923, Mr. Arvid Wickstrom, who had spent three years in South Africa, came to Wetaskiwin to claim Ruth as his bride. December 26 they were united in marriage in the presence of many friends, at the New Sweden Mission Church.

February, 1924, saw Mr. and Mrs. Wickstrom on the way to South Africa, where they have since been laboring faithfully. There were many oppositions in Africa, but they trusted the Lord. Many times were their lives in danger, but they went on, striving to win some soul for their Lord.

Last September Mrs. Wickstrom became seriously ill and her husband bade her a sad farewell, for they thought her life's work was ended. But the Lord's will was otherwise, and she was to see her dear mother once more before she passed to her great reward. Shortly after her recovery they set sail for their home town, where they were to take up the Lord's work in the Malmo and New Sweden congregations.

March 18th, Mr. and Mrs. Wickstrom and their little four year old son Dwight, arrived in Wetaskiwin. Great indeed was the joy of her parents as well as all their friends, when they had at last reached her safely. March 17th and 18th were two big days when the two congregations had a welcome for them. But our joy was soon turned to sorrow.

March 19th Mrs. Wickstrom became seriously ill and was taken to the hospital the following Sunday. Many were the prayers sent up for her recovery, but the Lord had a different plan, and Good Friday, the day of our Lord's death, at a few minutes past six in the evening, she passed to her eternal rest, after many hours of severe suffering.

The funeral was held April 3rd, at the New Sweden church, where over two hundred and fifty gathered to pay their last respects to the departed, and mourn with her sorrowing husband, son, parents and near relatives. Many and beautiful were the floral tributes on her last resting place.

Yes, her life's work is ended, and she is now at home with her Saviour. May it be a warning to us, especially as young people, that our time is short, and we should be ready to meet our Lord when our time comes. Oh, that we could meet our Lord with as many sheaves as our departed sister had. For we know she labored faithfully and gathered many sheaves.

Mrs. Wickstrom was an active member of our Northern Lights Young People's Society, and while in Africa she always signed herself "A Northern Lighter under the Southern Cross." May it not only be said of her but of us all. Such a glorious title to own, "A Northern Lighter under the Southern Cross."

### NORMAL STUDENTS AT PRACTICE WORK

Close to 800 normal school students from the Edmonton, Camrose and Calgary schools are now taking the annual practice work in one-room rural schools throughout the province. About half the number were

sent out last week, and the second contingent will go next week, the Easter holidays making the dividing date.

A week's actual teaching and observing experience is thus given the students, under the supervision of the local teacher. One student to a school is the rule, and about 650 schools have been selected for the purpose, as near as possible to the students' homes. The arrangements are made through the department, but the trustee boards are asked to co-operate.

Hon. Percival Baker, minister of education, says that last year's experiment in this supplementing the work in the normal schools by providing each student in training with real practice and school-room experience was a marked success, and the plan is being considerably developed this year.

### CRUEL THUG GOES TO PENITENTIARY

William Gregoraschuk of Hairy Hill, was sentenced to five years in Prince Albert penitentiary by His Honor Judge Dubuc following the conclusion of his trial in Vegreville on Tuesday.

The crime for which Gregoraschuk was found guilty was perhaps one of the most revolting in the history of A. division, and his arrest a fortnight ago ended in a chase that led into Saskatchewan and back to Alberta several times.

On the night of September 16, 1925, Gregoraschuk, together with John Tomashevski who were working on a farm in the Spring Creek district, went to the home of Mike Mohyluk, an aged farmer, and after being admitted, brutally attacked the old man and his wife who was lying in bed. Using an axe as a weapon they threatened the couple, who in fear of their lives, disclosed the hiding place of their money. The two thugs took \$30 and departed, leaving the man and woman lying on the floor bleeding from the wounds which had been inflicted.—Vegreville Observer.

TURNER VALLEY OIL FIELD IS WITHOUT DOUBT PREMIER PRODUCER OF "NATURAL GAS"

(By Paul Reading)

Calgary, April 8.—Without reference to its dominance of the stock market, the Turner Valley Oil Field is rivalling attention as never before. This slight strip of ground to the south of Calgary has suddenly become one of the most interesting bits of Canada's geography. A swift moving series of events have made it so, even to an unversed eastern eye, the whole aspect of the valley has altered within the past six months. With Royalty No. 4 as its one spectacular performer, the field last summer was an exciting phenomena; but it lacked dimensions; it still left room for legitimate doubt.

Today the element of uncertainty is still there, but concrete evidence has increased and is still increasing. There is an undeniable boom in progress at the moment. Perhaps it has already exceeded the limits of discretion; but at least it is based on something more than inspired optimism. Turner Valley has established itself as a tangible asset of national and perhaps continental importance. Although actual production has not yet mounted in very striking figures—last year's two million dollars a small item in comparison with the fifty odd millions we spent on imported oil and oil products—the potentialities of the valley are beginning to emerge, and development has reached a point where we can begin to judge them.

It goes without saying that this development is still in the exploratory stage. No one has done more than test his ground or drill to offset his neighbor. The east and west margins of the field have been partly established; its north and south limits are still a matter of conjecture, and the drill rigs are still groping their way over fresh areas to extend the production zone in this direction. From three to five thousand feet underground is the hard-capped ridge of porous limestone from which Royalty No. 4 and its kindred wells draw their supply of naphtha laden gas. Drilling operations are now in progress over twelve miles of its length, and within the past six weeks they have yielded two results that may be said to have changed the whole face of Turner Valley.

Six weeks ago the main production area of the field was within a three mile belt, situated in the middle of the valley and immediately north of where Sheep Creek crosses it. The two furthest producing wells were five miles apart; the three biggest producers one mile apart; and the southern end of the valley was unproved ground. Then Home No. 1 blew in with a tremendous flow of wet gas and has since surpassed Royalty No. 4 in the volume of its liquid output.

Until still more recently the only heavy production obtained had been from a fairly shallow depth in the limestone; and a well that having penetrated this upper layer of the "lime" yielded only small returns was regarded as having exhausted its possibilities. McLeod No. 4, located nearby Royalty 15, was a well of this type, but as a venture its owners continued drilling. At a depth of more than twelve hundred feet in the limestone it came in as a heavy

NURSES know, and doctors have declared there's nothing quite like Aspirin to relieve all sorts of aches and pains, but be sure it is Aspirin the name Bayer should be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box:

Aspirin is a registered trademark registered in Canada.

wet gasser, and can now be ranked with Royalty 4, Home No. 1, and Okalta No. 1 as one of the Turner Valley's big four.

The advent of Home No. 1 had added three miles to the length of the known field and established a new focus of big production. McLeod No. 4 has demonstrated that the less successful wells will have a second chance of major rank if they are carried down to deeper horizons in the limestone. It may be taken for granted that many of the smaller producers will now be given this second chance and it is reasonable to anticipate that some proportion of them will justify it.

In theory, the Turner Valley has enlarged itself in two directions since the middle of last month. It is potentially three miles longer and is potentially deeper. There are some other considerations worth noting. As a producer of "natural gasoline" this is already the premier field of the continent. The tremendous pressure at which it yields its wet gas is unequalled. No one has yet succeeded in determining this pressure accurately. It has so far been impossible to define it, but it is commonly interpreted as an indication of long life for the wells it feeds.

Royalty No. 4, for example, blew in during November, 1924, and four years of production have left its flow not diminished but increased. The completion of neighboring wells has not affected it, and noting its type, its record is unparalleled. Still more eloquent is the statement of a seasoned oil expert who has known the valley from its infancy. He told me that no well had been drilled to its objective in the Turner Valley limestone without yielding oil or wet gas in substantial quantities. The fractures have either been blocked holes or definitely off the formation. He did not quarrel with my deduction that some eight square miles of the valley can be regarded as proven ground.

All of this ground will one day be drilled; and I have asked a number of technical men how closely wells could be placed over it with economy. Their answers averaged out at one well to every ten acres, which works out at 112 wells for the present known productive area. Taking this estimate, and a prospective production of 75,000 barrels per month from the twenty-five wells now active, one could work out a very alluring picture of the future; but I can safely leave that problem in simple arithmetic to the promoter.

These five hundred wells have not yet been drilled, and until they have it would be folly to estimate their possible yield. I mention this merely to emphasize the fact that Turner Valley is still an infant, with the prospect of a healthy career before it. It might be as well to add that this discussion has nothing to do with the merits of the present oil market.—Edmonton Journal.

## GIRLS TO ARRIVE IN CALGARY SOON

Under the Central Women's Colonization Board of Alberta, the first group of young girls from Central Europe who have been brought to Canada for domestic service, will arrive in Calgary during the coming week. Every two weeks from now until the beginning of summer, it is expected that a similar group of 20 girls will come to the city under this department.

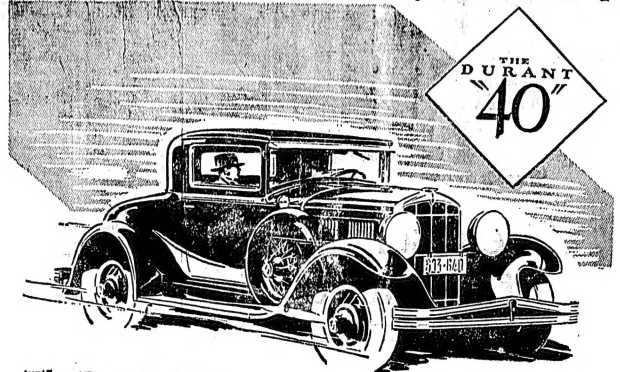

Miss Elsa Wares, efficient young secretary of the board, who arranges for their placement and keeps in close and friendly touch with the girls after their arrival, left for Winnipeg Friday evening.

Under her direction, clubs and groups are formed where the girls are taught the ways of this country and soon learn the language and the customs. The girls enjoy their work and by their placement are satisfied and contented to remain in the work for which they came to Canada. Miss Wares also has a splendid follow-up system whereby each girl is kept in close contact with the board by correspondence and personal meetings throughout the year following her arrival.

## Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is expelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drugstore has the genuine, prescription product.

BUCK LAKE DISTRICT

**MAUD POCHA**  
Death has again entered the home of Mr. and Mrs. Edwin Pocha and taken another member of their family.

On Thursday March 28th, Maud Pocha passed away after a lingering illness of tuberculosis at the age of eighteen years and six months. She was born near Headley and has lived in and about the Buck Lake district all her life; she was a general favorite with everyone. The funeral service was held in the big dining room of the Bear Creek Mills, where Mr. Pocha is an employee.

Girl friends of Maud Pocha carried the beautiful casket into the dining room, where Mr. T. Turnbull conducted a very impressive service, also at the Maywood cemetery, where she was buried beside her brother Dick, who died January 14th of that dread disease, the "flu," at the age of 21.

## Has Your Horse Swollen Tendons?

Absorbine reduces inflamed, strained, swollen tendons, ligaments or muscles, and it stops lameness and pain from a splint, side bone or bone spavin. No blistering and no bad removal, and the horse can be worked during treatment. \$2.50 a dozen, or general merchandise. A booklet on the horse sent free. W. F. Young, Inc., Lyman Bldg., Montreal.

thought they would ever stay on this side of the valley of death, Ruth gave her heart to the Lord, and from then on lived a consecrated life for her Lord. Some time later, after Ruth and her mother were again restored to health, a returned missionary from India, by the name of Mrs. Franklin, gave a missionary lecture on "The need of the Foreign Fields." While at this service, Ruth felt the call of the Lord and said "Yes" to Him.

In the late fall of 1919, she went to Moody Bible Institute, Chicago, to prepare for her life's work. She remained there for about a year, when she was suddenly called home due to her mother's illness. As sickness continued, Ruth was unable to go back to Moody and took up a position as stenographer in Wetaskiwin.

In December, 1923, Mr. Arvid Wickstrom, who had spent three years in South Africa, came to Wetaskiwin to claim Ruth as his bride. December 26 they were united in marriage in the presence of many friends, at the New Sweden Mission Church.

February, 1924, saw Mr. and Mrs. Wickstrom on the way to South Africa, where they have since been laboring faithfully.

There were many oppositions in Africa, but they trusted the Lord. Many times were their lives in danger, but they went on, striving to win some soul for their Lord.

Last September Mrs. Wickstrom became seriously ill and her husband had her a sad farewell, for they thought her life's work was ended. But the Lord's will was otherwise, and she was to see her dear mother once more before she passed to her great reward. Shortly after her recovery they set sail for their home town, where they were to take up the Lord's work in the Malmö and New Sweden congregations.

March 18th, Mr. and Mrs. Wickstrom and their little four year old son Dwight, arrived in Wetaskiwin. Great indeed was the joy of her parents as well as all her friends, when they had at last reached her safely.

March 17th and 18th were two big days when the two congregations had a welcome for them. But our joy was soon turned to sorrow.

March 19th Mrs. Wickstrom became seriously ill and was taken to the hospital the following Sunday. Many were the prayers sent up for her recovery, but the Lord had a different plan, and on Good Friday, the day of our Lord's death, at a few minutes past six in the evening, she passed to her eternal rest, after many hours of severe suffering.

The funeral was held April 3rd, at the New Sweden church, where over two hundred and fifty gathered to pay their last respects to the departed, and mourn with her sorrowing husband, son, parents and near relatives. Many and beautiful were the floral tributes on her last resting place.

Yes, her life's work is ended, and she is now at home with her Saviour. May it be a warning to us, especially as young people, that our time is short and we should be ready to meet our Lord when our time comes. Oh, that we could meet our Lord with as many sheaves as our departed sister had. For we know she labored faithfully and gathered many sheaves.

Mrs. Wickstrom was an active member of our Northern Lights Young People's Society, and while in Africa she always signed herself "A Northern Lighter under the Southern Cross." May it not only be said of her but of us all. Such a glorious title to own, "A Northern Lighter under the Southern Cross."

## NORMAL STUDENTS AT PRACTICE WORK

Close to 800 normal school students from the Edmonton, Camrose and Calgary schools are now taking the annual practice work in one-room rural schools throughout the province. About half the number were

sent out last week, and the second contingent will go next week, the Easter holidays making the dividing date.

A week's actual teaching and observing experience is thus given the students, under the supervision of the local teacher. One student to a school is the rule, and about 650 schools have been selected for the purpose, as near as possible to the students' homes. The arrangements are made through the department, but the trustee boards are asked to co-operate.

Hon. Perren Baker, minister of education, says that last year's experiment in this supplementing the work in the normal schools by providing each student-in-training with real practice and school-room experience was a marked success, and the plan is being considerably developed this year.

## CRUEL THUG GOES TO PENITENTIARY

William Gregorashuk of Hairy Hill, was sentenced to five years in Prince Albert penitentiary by His Honor Judge Dubuc following the conclusion of his trial in Vegreville on Tuesday.

The crime for which Gregorashuk was found guilty was perhaps one of the most revolting in the history of a division, and his arrest a fortnight ago ended in a chase that led into Saskatchewan and back to Alberta several times.

On the night of September 16, 1923, Gregorashuk, together with John Tomaszewski who were working on a farm in the Spring Creek district, went to the home of Mike Mokhyuk, an aged farmer, and after being admitted, brutally attacked the old man and his wife who was lying in bed. Using an axe as a weapon they threatened the couple, who in fear of their lives, disclosed the hiding place of their money. The two thugs took \$90 and departed, leaving the man and woman lying on the floor bleeding from the wounds which had been inflicted.—Vegreville Observer.

### Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, Purdy to Handle Wheat Pool Elevators)

R. D. Purdy, manager of the Alberta Wheat Pool, in addition to his present duties has been appointed manager of the Alberta Pool Elevators, Limited. It is announced from the Pool head office in Calgary. Mr. Purdy's appointment fills the vacancy created by the retirement of C. M. Hall who has occupied this position for the past 2½ years. T. E. Oliver, in addition to his present duties as assistant manager

Government of Alberta, Edmonton, of Alberta Pool Elevators Ltd., has been named assistant manager of the Alberta Wheat Pool. These appointments bring all the departments of the Pool, including the elevator system, under one central management.

**Will Bridge Many Northern Streams**

Two steel bridges and thirty bridges of wooden construction will be erected in the southern part of the Peace River district during the coming season as part of the provincial government's road building program.

**Technical Agriculturists Elect Officers**

D. H. Galbraith, M.L.A., of Vulcan, has been elected president of the Alberta branch of the Canadian Society of Technical Agriculturists for the year 1929. Professor R. D. Sinclair, University of Alberta, is the new vice-president, while J. M. Manson, also of the University staff, has been re-elected as secretary-treasurer and C. Tapp and Professor J. McGregor Smith have been named on the executive committee of the organization.

**Baby Beef Brings Record Price**

A record price was established at the Calgary Spring Show during the past week when the first prize calf in the Boys' and Girls' Calf Feeding competition sold for three dollars a pound. This calf, an Aberdeen Angus, shown by Harold Richardson of Bowden, was an outstanding winner in his class. It was purchased by Mrs. Hind of Hind's Meat Market, Calgary, and at a weight of 940 pounds, brought its young owner the handsome return of \$2,820.

**"Better Seed Campaign" Successful**

General satisfaction is expressed throughout the province with the results of the campaign to promote the use of better seed grain recently carried out under the direction of the Department of Agriculture. A marked improvement in the quality of seed used last year was noted as the result of a similar campaign and it is hoped that a corresponding improvement will be apparent in the 1929 crop.

**Soldier Settlers' Farms Being Revalued**

Good progress is being made in the revaluation of farms occupied by soldier settlers according to announcements made by officials of the Dominion Land Settlement Branch. A good start was made with this work last fall and inspectors of the Settlement Branch will continue their duties along this line in many districts in the province as soon as road conditions permit.

**Teachers' Organizations Name Officers**

Miss Edith Patterson of Calgary, was elected president, C. O. Hicks of Edmonton, first vice-president, and Wm. Wallace of Camrose, second vice-president of the Alberta Educational Association for the ensuing year at the Annual Convention of the Association held in Edmonton during the past week. A. J. H. Powell of Fort Saskatchewan, is the newly elected

president of the Alberta Teachers' Association with C. G. Elliott of Edmonton as vice-president. Regional representatives of the Association were named as follows: Calgary, Miss J. McColl; Edmonton, C. O. Hicks; Northern Alberta, Miss E. C. Barclay, Red Deer; Southwestern Alberta, W. L. Irvine, Vulcan; and Southern Alberta, Mrs. J. N. Jolley, Drumheller.

**TURNER VALLEY OIL FIELD IS WITHOUT DOUBT PREMIER PRODUCER OF "NATURAL GAS"**

(By Paul Reading)

Calgary, April 8.—Without reference to its dominance of the stock market, the Turner Valley Oil Field is rivalling attention as never before. This eight mile strip of ground to the south of Calgary has suddenly become one of the most interesting bits of Canada's geography. A swift moving series of events have made it so, even to an unversed eastern eye, the whole aspect of the valley has altered within the past six months. With Royalty No. 4 as its one spectacular performer, the field last summer was an exciting phenomena; but it lacked dimensions; it still left room for legitimate doubt.

Today the element of uncertainty is still there, but concrete evidence has increased and is still increasing. There is an undeniable boom in progress at the moment. Perhaps it has already exceeded the limits of discretion; but at least it is based on something more than inspired optimism. Turner Valley has established itself as a tangible asset of national and perhaps continental importance. Although actual production has not yet mounted in very striking figures—last year's two million barrels a small item in comparison with the fifty odd millions we spent on imported oil and oil products—the potentialities of the valley are beginning to emerge, and development has reached a point where we can begin to judge them.

It goes without saying that this development is still in the exploratory stage. No one has done more than test his ground or drill to offset his neighbor. The east and west margins of the field have been partly established; its north and south limits are still a matter of conjecture, and the drill rigs are still groping their way over fresh areas to extend the production zone in this direction. From three to five thousand feet underground is the hard-capped ridge of porous limestone from which Royalty No. 4 and its kindred wells draw their supply of naphtha laden gas. Drilling operations are now in progress over twelve miles of its length, and within the past six weeks they have yielded two results that may be said to have changed the whole face of Turner Valley.

Six weeks ago the main production area of the field was within a three mile belt, situated in the middle of the valley and immediately north of where Sheep Creek crosses it. The two furthest producing wells were five miles apart, the three biggest producers one mile apart; and the southern end of the valley was unproved ground. Then Home No. 1 blew in with a tremendous flow of wet gas and has since surpassed Royalty No. 4 in the volume of its liquid output.

Until still more recently the only heavy production obtained had been from a fairly shallow depth in the limestone; and a well that having penetrated this upper layer of the "lime" yielded only small returns was regarded as having exhausted its possibilities. McLeod No. 4, located nearby Royalty 15, was a well of this type, but as a venture its owners continued to drill. At a depth of more than twelve hundred feet in the limestone it came in as a heavy

**NURSES** know, and doctors have declared there's nothing quite like Aspirin to relieve all sorts of aches and pains, but be sure it is Aspirin the name Bayer should be on the package, and on every tablet. Bayer is genuine, and the word genuine in red—is on every box. You can't go wrong if you will just look at the box:

Aspirin is a trade mark registered in Canada

wet gasser, and can now be ranked with Royalty 4, Home No. 1, and Okalta No. 1 as one of the Turner Valleys' big four.

The advent of Home No. 1 had added three miles to the length of the known field and established a new focus of big production. McLeod No. 4 has demonstrated that the less successful wells will have a second chance of major rank if they are carried down to deeper horizons in the limestone. It may be taken for granted that many of the smaller producers will now be given this second chance and it is reasonable to anticipate that some proportion of them will justify it.

In theory, the Turner Valley has enlarged itself in two directions since the middle of last month. It is potentially three miles longer and is potentially deeper. There are some other considerations worth noting. As a producer of "natural gasoline" this is already the premier field of the continent. The tremendous pressure at which it yields its wet gas is unequalled. No one has yet succeeded in determining this pressure accurately. It has so far been impossible to define it, but it is commonly interpreted, as an indication of long life for the wells it feeds.

Royalty No. 4, for example, blew in during November, 1924, and four years of production have left its flow not diminished but increased. The completion of neighboring wells has not affected it, and nothing its type, its record is unparalleled. Still more significant is the statement of a seasoned oil expert who has known the valley from its infancy. He told me that no well had been drilled to its objective in the Turner Valley limestone without yielding oil or wet gas in substantial quantities. The fractures have either been blocked holes or definitely oil formation. He did not quarrel with my deduction that some eight square miles of the valley can be regarded as proven ground.

All of this ground will one day be drilled; and I have asked a number of technical men how closely wells could be placed over it with economy. Their answers averaged out at one well to every ten acres, which works out at 512 wells for the present known productive area. Taking this estimate, and a prospective production of 75,000 barrels per month from the twenty-five wells now active, one could work out a very alluring picture of the future; but I can safely leave that problem in simple arithmetic to the promoter.

Those five hundred wells have not yet been drilled, and until they have it would be folly to estimate their possible yield. I mention this merely to emphasize the fact that Turner Valley is still an infant, with the prospect of a healthy career before it. It might be as well to add that this discussion has nothing to do with the merits of the present oil market.—Edmonton Journal.

#### GIRLS TO ARRIVE IN CALGARY SOON

Under the Central Women's Colonization Board of Alberta, the first group of young girls from Central Europe who have been brought to Canada for domestic service, will arrive in Calgary during the coming week. Every two weeks from now until the beginning of summer, it is expected that a similar group of 20 girls will come to the city under this department.

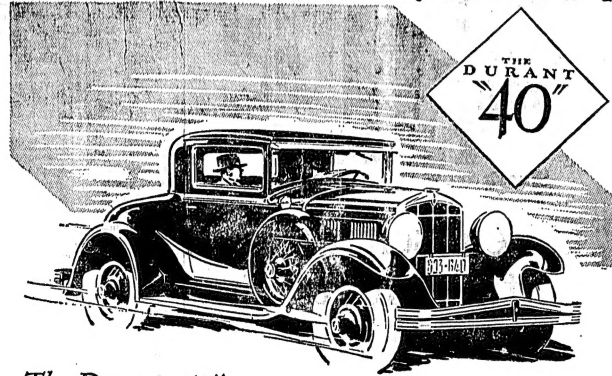

Miss Elsa Wares, efficient young secretary of the board, who arranges for their placement and keeps in close and friendly touch with the girls after their arrival, left for Winnipeg Friday evening.

Miss Wares also has a splendid follow-up system whereby each girl is kept in close contact with the board by correspondence and personal meetings throughout the year following her arrival.

## Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is expelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drugstore has the genuine, prescription product.

## In Five MILLION HOMES TONIGHT

There are times when all a mother's love can't soothe a fretful baby. No way of telling just what's wrong, yet something must be done. Castoria time! A few drops, and baby has dropped off to sleep. Yet this marvelous remedy of quieting a restless infant is utterly harmless. There is not one ingredient but what all doctors know and approve, and would let you give your baby every day in the week. In fact Castoria is a purely vegetable product. Gas pains, constipation, even diarrhoea can be relieved in this same manner. Castoria is older than you are, but physicians still say "nothing better for babies." An old-fashioned remedy if you count its years, but parents are old-fashioned who still raise babies without its aid! And at least five million modern mothers keep it handy day and night, for twenty-five million bottles were bought last year! Buy yours now; don't wait until you need it.

## P. C. Petersen Writes Further About Trip

Dear Friends:  
On July 6th we started our journey northward again, going through some pretty country and cities. Olympia, the capital of the state of Washington, is a very pretty place. We camped on the outskirts of a place called Chehalis, right along the side of the road, where there happened to be a little gravel, otherwise it is hard to find a camping place along the highway, the ground is so soft that should you get off the pavement you would be stuck in the mud. About two o'clock

that day we came through Puyallup, and almost the first man we happened to see was Julius Dahms. We did not stop very long, as we wanted to make Summer that afternoon. Arriving there, we enquired about our old friend, Ed Schmidt, and finally found him, up a cherry tree, and, of course, they were very glad to see us. This was on Friday evening. First of all we picked our fill of cherries, they were dead-ripe and going to waste, as they had too much rain. The following day, Saturday, we helped them pick raspberries, and on Sunday they took us to Tacoma, and showed us different places of interest, especially Point Defiance Park. Coming back from Tacoma, we stayed all night at Mr. Dahms, in Puyallup, and the following day, Saturday, we visited the following: Gus, Gross, John Berry, Jake Berry, Earl Jackson and others. We found them all nicely located, beautiful homes and all of them had more or less fruit of different kinds, such as raspberries, blackberries, loganberries, cherries, apples, plums, peaches, etc. That night Mr. Schmidt came and

got us again. The following morning we came to within a few miles of Seattle, but did not go to Seattle nor Vancouver, B.C., but went eastward, which is mostly mountainous country, until we got to Wenatchee, from thereon it is more or less level. In and around Wenatchee is a great fruit country, mostly apples and pears, and the country between Wenatchee and Spokane is a small grain country, mostly wheat. A great deal of road we came over was under construction, so that we had to make quite a few detours. We camped one night with a man called Brandt, who treated us very kindly, and told us a great deal about that part of the country. They call that part a scrub oak country, and in a great many places there is barely enough soil for them to plough. This man Brandt had a cave, or an outside cellar. He could only dig down about two feet, so he had to build the cellar up with rock and dirt to make it deep enough. Twenty bushels of wheat to the acre is a large yield. It is all dry farming there. The following day we camped about 15 miles west of Spokane, along a nice little trout stream, and quite a few were fishing there. We had no license, so we were not in it. The next day we drove through Spokane and then north to Deer Park, where we found our son, Henry. He was living in the country about three miles from Deer Park, and was working in a box factory. We stayed here about two weeks and put most of our time in picking Oregon grapes and making jelly out of the same. We went to several summer resorts around there, did a little fishing, and visited a small town by the name of Clayton. In that country around there, is a great deal of fire clay, and also the clay from which terra cotta is made. There is a great factory at Clayton, where all kinds of terra cotta works are made and shipped all over the world.

At Deer Park we lost our son Bruce, as he got work with the same firm Harry worked for. So there were only three of us left to continue the journey eastward towards the Yellowstone National Park, which we will describe in our next letter.

For all those who may want to write to us, we will give you the following address: P. C. Petersen, 1632 Ave. B, Co. Bluffs, Iowa.

Yours truly,  
P. C. Petersen and Family.

### TARIFF ACTION BY U.S. NOT LIKELY TO INJURE DOMINION

Fully 300 cattlemen attended the annual banquet of the Alberta Cattle Breeders' Association at the Palliser Hotel, Calgary and heard two addresses.

The guest of the evening, Dr. Geo. Christie, newly appointed head of the Ontario Agricultural College, Guelph, took as his subject "Live stock as a stepping stone in agriculture." Paying a glowing tribute to the wheat growers of the prairie for their work in the past, Dr. Christie pointed out that no country has succeeded agriculturally by grain crops alone, and instanced as example the older districts of Europe which he visited several months ago.

In the valley of the Danube, in Rumania, and neighboring countries, after hundreds of years of cultivation, the soil was making higher returns than ever, and this through the policy of returning fertility to the soil.

Dr. Christie gave it as his opinion that cattlemen's problems, particularly in the Northern states of the union, had been greatly increased and their cost of production raised through the

### Heart Was Weak Nerves Were Bad COULDN'T DO HOUSEWORK

Many women become weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of weak and wretched, and to all women whose heart is not functioning properly, and whose nerves are unstrung we would recommend

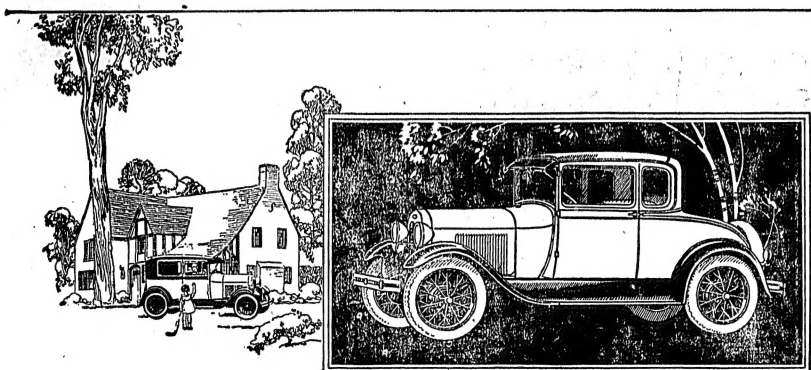

as the best remedy to tone up and strengthen these weakened organs. Mrs. E. Barron, Bulwer, Que., writes:—"Over a year ago my heart was weak, and I was so nervous I could get very little sleep. I became so bad I was unable to do my housework. I got some of Milburn's Heart and Nerve Pills which I used with great success. I can now do all my work without any trouble, and as I am the mother of five children and live on a farm you can see I have plenty to do."

## Alert and Powerful

**SUPERB** action both in traffic and on the open road has won world wide demand for the Ford car. This great performance together with remarkable beauty of line and colour makes every owner of a Ford Car its enthusiastic champion. A short turn behind the wheel will explain such staunch pride of ownership.

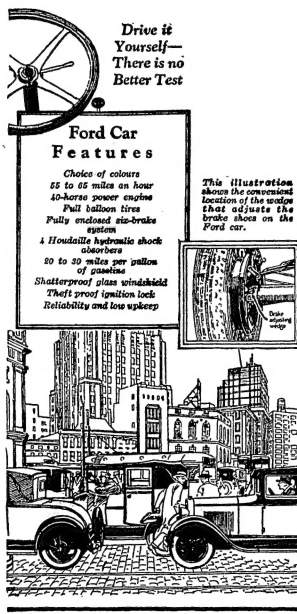

Ask your Ford dealer to let you drive a Ford Car. He will be glad to take you out. Select the steepest hills, the heaviest going—you will be amazed at the power at your command. Make for the thickest traffic. Drive alongside other cars. Try the quick getaway, the swift pickup in second, the easy gearshift. Feel the smooth, sure action of the six brake system. A demonstration will convince you of the outstanding merit of the Ford Car. Drive it yourself, there is no better test.

**Enduring Quality**—Power; ability to endure sustained high speeds; smooth operation of the remarkable Ford engine; quietness of the transmission and rear axle; ease and certainty of control; braking efficiency; acceleration and riding comfort—these are the result of quality inbuilt throughout the Ford Car.

**Riding Ease**—The unique Ford Car feature of transverse, semi-elliptic springs has much to do with its road tenacity, reducing the effect of

body sway on rounding turns. Torque tube drive, an original Ford feature now adopted by a number of the more expensive motor cars, relieves the springs of all driving strain. Four Houdaille hydraulic shock absorbers, cushion road shocks and provide smooth riding even on rough stretches.

**Time Payment**—If you prefer to buy out of income, you will find the authorized time payment plan offered by all Ford dealers most attractive.

breaking up of large areas by nature fitted only for cattle and sheep grazing. Referring to the question of an increased U.S. tariff against Canadian cattle, the speaker had little fear that any action working greatly to the disadvantage of the producer on this side of the line would be taken. Many years of residence in the republic and close connection with farming conditions there convinced him Canadian cattle were needed and he predicted that after the present agitation had subsided and the question finally settled there would be little change.

### GARDENER AT PONOKA PLANS FOR BIG SEASON

Ponoka, April 8.—Unusual preparations are being made by the outside staff at the Ponoka Mental hospital for the spring planting of plants, shrubs, vegetables, flowers, etc. Under the direction of Frank Haydel, the grounds superintendent, 35,000 plants of all kinds will be set out this year. This is in excess of any previous years by nearly ten thousand. The grounds have always in the past been one of the beauty spots of the district and it is planned this year to make it more beautiful and extensive than heretofore.

It is part of the plan to not only make the grounds more beautiful, but also to increase considerably the amount of vegetables to be raised

both for the patients and for the use of the staff.

The services of a considerable number of the patients will be utilized in this work and the very nature of it should be beneficial to the patients themselves. The work is not too arduous for the patients and it has been proved by past experience that real benefit is derived from outdoor occupational therapy.

### ARTICLE No. 14

Deductive bids are interesting and difficult, but every good player should be on the alert for such opportunities and take advantage of them. Here is a hand that shows the necessity for being on the alert:

Y B

A Z

Hearts—K, Q, 8, 3

Clubs—Q, 10

Diamonds—Q, 10, 9, 7, 5, 3

Spades—

No score, rubber game. Z dealt and passed. A bid one spade, Y passed and B bid two clubs. Z now bid two diamonds. A bid two spades. Y bid three diamonds and B passed. What should Z do? Should he try for game at diamonds; or should he bid three hearts and try for game in that suit? Game at diamonds looks hopeless because Y Z would lose three probably four tricks. On the other hand, it takes one less trick for game at hearts than at diamonds; therefore game might easily be possible at hearts and not at diamonds. Also if Z does bid three hearts and is doubled, he can very easily bid four diamonds. In other words, a three heart bid offers a better chance for game than diamonds and without any great danger.

After analyzing these facts, Z bid three hearts. A bid three spades, Y bid four hearts and all passed. In the actual play of this hand Y Z just made four tricks and thereby scored a game and rubber not possible at diamonds at which bid they would also have scored four odd. Y's hand was as follows:

### Answer to Problem No. 16

Hearts—Q, 8, 7, 5

Clubs—A, K, Q

Diamonds—

Spades—

Hearts—A, 10, 9

## MILLET LOCAL NEWS

Mrs. L. R. Macdonald and Miss Margaret, were visitors to the City last week.

Mr. H. O. Cooke, of the Cooke Drug Co., Wetaskiwin, was a visitor in town on Tuesday last week.

Mrs. E. A. Smith and Miss A. H. Smith attended the Teachers' Convention during Easter week.

Mrs. Van Alstyne, of Calgary, was the guest of her daughter, Mrs. L. Wolf, during the past week.

Mr. Ted Mullen and family have moved from Edmonton to the farm owned by Mr. H. Stuart, east of town.

Mr. A. H. Parker, formerly of Millet, re-opened his Meat Market here last Thursday, with Mr. J. H. Parker in charge.

Miss Margaret Macdonald left on Saturday for her school near Lacombe, having spent the Easter vacation at the Manse.

Mrs. W. Ross and Miss Jean were in Edmonton on Thursday to attend the Oratorical Contest in McDougall church that evening.

Mr. P. S. Norris arrived from London, England, on Tuesday, and has taken a position on the farm of Mr. Denley, northeast of town.

Miss Rose Kuhn, teacher of the John Knox school, spent her Easter vacation at her home, also attending the Teachers' Convention in Edmonton.

Mr. and Mrs. W. Watt of Edmonton, and Mrs. Robt. Dyer of Westlock, spent Good Friday at the home of their parents, Mr. and Mrs. P. Chell, son.

The wedding of Mr. Colby, south of Bonnie Glen, was solemnly celebrated by fire on Tuesday last week, practically nothing of household furnishing was saved.

The Patience U.F.A. staged a concert at the Porto Bello school on Friday night, April 6th, which was well attended and enjoyed by all. Refreshments were served and the remainder of the evening was spent in dancing.

A bylaw has been passed governing the running of tractors on the streets of the Village, providing for the removal of the "hug" from the large wheels, or the use of a rim, thus preventing the lugs from tearing up the road.

The Curfew Law came into force last week, the bell being rung at nine o'clock, at which time all children under sixteen years of age are required to be off the street and out of public places unless accompanied by their guardians.

Mr. and Mrs. T. W. Higginson and daughter Shirley of Edmonton, Mr. and Mrs. S. Cole and son Vincent of Wetaskiwin, Mrs. Higginson, Sr., and Mr. F. J. Higginson and family, were guests on Sunday at the home of Mr. and Mrs. P. I. Alkens.

## THINK IT OVER !

Here is a good motto for all of us:

"Be kind. The fault that looms so large in someone else, may not be yours, but to your charge, may be one worse."

"Be gracious. It is better far, to overpraise than thoughtlessly some soul to mar with sharp reproach."

"Be merciful. For after all is said and done, who think they stand may shortly fall and never rise."

"Be careful. Unwise speech will wing both fast and far, to unsuspected realms and sting with hurtful wound."

"Be fair. Your judgment does not close the whole account; another finds praise for those you criticize."—Roma Paki.

## Obituary

MRS. J. C. DOWDELL

Mrs. J. C. Dowdell, an old-timer of the West Village district, passed away suddenly at her home there on Saturday morning, April 6th. Her husband predeceased her by nine years.

Mr. and Mrs. Dowdell and family came to the Millet district from Oregon in 1906 and have since resided here. Mrs. Dowdell was well known to, and respected by a wide circle of friends.

The funeral service was held at her home at 2 p.m. on Monday, April 8th, Rev. L. R. Macdonald conducting the service. Burial took place in the Millet cemetery. The pallbearers were old neighbors, H. Arnold, H. Phillips, T. Moonen, S. Clark, C. R. Scharf and R. P. Roop.

Floral tributes were received from The Tribunes, and Lou, Jim and Mabel, The Arnold Family, The Manson Family, Mr. and Mrs. J. R. K. Graham and Miss Harrison, Mr. and Mrs. Haines, Mr. and Mrs. Heslop, Mr. and Mrs. A. P. Mitchell, Mr. and Mrs. Stanley Scott.

Deceased leaves to mourn her loss four brothers, J. A. T. Menzies, of Westport, Ont., J. H. Menzies, of Chantry, Ont., and V. A. Menzies, of Red Deer, Alta., and two sisters, Mrs. J. Forrester and Miss Ann Menzies both of Westport, Ont., besides three sons and one daughter, A. E. Dowdell and W. C. Dowdell of Millet, J. L. Dowdell of Vegreville, and J. M. Manson of Edmonton, also one grandson, Keith Dowdell of Vegreville.

## CARD OF THANKS

The family of the late Mrs. Dowdell wish, through the columns of The Times, to tender their neighbors and friends for the sympathy and assistance extended them during their recent bereavement. They are especially grateful for the beautiful floral tributes.

## Encouraging

Doctor: "Getting pretty tired of lying on the flat of your back, aren't you? Let me see it; it's been about six weeks now, hasn't it? Well, cheer up, I have good news for you."

Impatient (eagerly): "What's that, Doctor?"

Doc: "If you're still improving to-morrow, you can lie on your left side."

Swedish Dialogue

"Hello, Albi, where you ban so long?"

"I ban got married."

"Ban's good."

"Not so good, my wife got two children."

"That's bad."

"Not so bad, she got \$10,000."

"That's good."

"Not so good, she wouldn't give me the money."

"That's bad."

"Not so bad, she built a house."

"That's good."

"Not so good, the house burn down."

"That's bad."

"Not so bad, my wife burn up in house."

## Husband Was Afraid She Was Getting Pneumonia

Mrs. Charles Edwards, R.R. No. 2, Wheatley, Ont., writes: "Last winter I was bothered with a very bad cold, and my husband was afraid I was getting pneumonia."

"One day one of my neighbors came in and she suggested that I try

**Dr. Wood's Norway Pine Syrup**

"I took a few doses and I was greatly relieved."

"I also relieved my son, aged nine, of the croup."

"I will never be without a bottle of 'Dr. Wood's' in the household. I cannot recommend it too highly."

Price 35¢ a bottle; large family size 60¢ at all druggists and dealers.

Put up only by The T. Millburn Co., Ltd., Toronto, Ont.

## HILLSIDE

The schoolhouse was crowded to capacity on Saturday evening last to listen to the debate on the following resolution: "Resolved that there should be immediate development of the electrical power and resources of Alberta under Provincial ownership and control both as to generation and distribution."

The affirmative was ably upheld by Mr. and Mrs. T. Hoves and E. R. Hoskins, the negative being just as ably upheld by Messrs. Cook, Ferguson and Mrs. J. Blomholm, of Conjugating Creek. Rev. L. R. Macdonald, in giving the judges decision, complimented both teams on the splendid arguments advanced by them. Of course the Rev. gentleman in a jocular mood, kept everyone in suspense as to the decision with many witty remarks for several minutes. Eventually he informed the audience that the decision had been given to the affirmative. The judges were Mr. Faulkner of Conjugating Creek, Mrs. J. O. Harvey, of Hillside, Rev. Macdonald of Millet, being the independent judge. A number of Conjugating Creek enthusiasts motored over, also a crowd from Porto Bello. Community singing and vocal selection brought to a close a very enjoyable evening.

Misses Anderson and Manders of the C.N.R. staff, Edmonton, spent Wednesday in the district and attended the dance in the evening.

Miss Hamilton of Conjugating Creek, spent a couple of days at "Devonia Farm," the guest of Mr. and Mrs. E. R. Hoskins.

Kenneth Swartz of Wetaskiwin, spent the Easter vacation with his parents.

Owing to the illness of Miss Foster, school will not reopen till the 15th.

We regret to report the serious illness of Mr. Howard Marr. We hope for a speedy recovery.

Those who journeyed to Porto Bello on Friday evening to attend the concert held under the auspices of the U.F.A., report an excellent program.

A dance will be held in the school house on Friday, April 19th, in aid of the piano fund. The usual good music at a good time assured.

The U.F.A. will hold their regular meeting in the school house on Thursday evening, the 11th, instead of Friday.

Mr. L. E. Marr was in Edmonton this week attending the Spring Show and Bull Sale.

## WIESENFORD W.I.

The regular monthly meeting of the Wiesenford W.I. will be held April 4th, at the home of Mrs. J. Smith, with eight members present and one new member.

The meeting was called to order by the president and opened by singing "O Canada," and reading the "Creed Card."

After this regular business discussion, it was decided every member should try to raise talent money for the Institute, and Mrs. Burgh kindly offered her home for a card party to be held April 17th. An invitation is extended.

"After this regular business discussion, it was decided every member should try to raise talent money for the Institute, and Mrs. Burgh kindly offered her home for a card party to be held April 17th. An invitation is extended."

CANADA GAINS 17 FROM ONE FAMILY

London, April 5.—The ministry of labor's farm training camps by the end of the month will have turned out 1,500 men for Canadian farms. It is estimated. By the middle of July the total movement from these camps for the year is expected to have reached between 5,000 and 6,000 men. One family of no less than 17 members from Wales, sails for Canada from Liverpool tomorrow.

ROBBERIES COMMITTED AT AIRDRIE

During the early hours of Sunday morning, thieves swept down on the town of Airdrie, committed five burglaries and departed with their loot in a stolen car, which was observed leaving the town and which was recovered in the City Sunday morning—Calgary Alberta.

CAT SUFFOCATES RANCHER'S INFANT

Alliance, Neb., April 5.—A large Maltese cat today suffocated the five months old son of Charles M. Racek, rancher, residing 25 miles north of here. The animal sprang from the infant's cradle when the parents entered the bedroom.

"WOP" MAY FLIES WITH SICK WOMAN TO EDMONTON

Another mercy trip can be chalked up to the credit of Capt. "Wop" May, who on Sunday morning brought Mrs. Ferdinand Goltz, who was critically ill at Newbrook, Alberta, to the Royal Alexandra hospital by aeroplane for medical attention. On Monday morning the woman was reported to be making good recovery and out of danger.

Septic infection was the cause of the woman's illness. As the roads were bad, a call was sent out Saturday evening to the minister of health, for help. Arrangements were then made for the Commercial Airways machine to be taken out Sunday morning to a point 25 miles northwest of Wetaskiwin, where the woman and a nurse were picked up.

SNOW ON PRAIRIES

Winnipeg, April 6.—After being at most coaxed several times that vernal weather was at hand, Manitoba's prairies were garbed in a heavy overcoat of best quality snow today. Tinged with tain in several sections, a flaky precipitation marked all of the three prairie provinces during the night.

Use The Times Want Ad. column.

## MASTER PHOTO-FINISHING SERVICE

During 1929, as in the past, we are prepared to give the best and the very latest in Photo-finishing. During 1928 we introduced in Alberta the beautiful Border-Prints, and we will continue to feature them during 1929. The old style plain prints (without borders) will, however, be supplied to those who request them.

Enlargements are more popular than ever, especially the new tinted enlargements that we are introducing this year.

Twenty Drug Stores and Bookstores in Alberta and Saskatchewan send their customer's films to us to be developed and printed; our agents in Wetaskiwin are:

The Co-op Drug Co.  
Emm's Bookstore.  
The Free Press Bookstore.  
Mail orders sent to any of the above or direct to us, will get the usual same day service and the best finishing.

## ALBERTA AND B.C. LEAD PROVINCES

Ottawa, April 6.—Alberta and British Columbia lead the provinces of Canada in the move to take advantage of the long term loan system, given to farmers through the Canadian farm loan board. In these two provinces provincial boards have been nominated by order-in-council. This was announced Thursday by Dr. J. D. McLean, commissioner of the central board, following the first meeting of that body since he returned from an organization tour of the west.

At Thursday's meeting, a statement given out by Dr. McLean says, there was general discussion with respect to the progress of the work of the board both at head office and where the branches are organizing. Machinery in Ottawa is complete for the administration of the long loan system to Canadian farmers. It remains only for the provinces to form their boards and for the federal and provincial bodies to deal with the applications for funds made to them. He expects loans to be made to farmers in the near future.

## NEW SETTLERS TO COME FROM SOUTH

Edmonton, April 6.—Many new settlers are expected to arrive in Alberta from California this spring, according to Frank Peterson of the Alberta Publicity Commissioner's branch on his arrival in the city Friday after a four months' visit to the Pacific coast states. On every side Mr. Peterson found Californians displaying marked interest in this province. Those who went to California in the last few years found themselves disillusioned,

he said, and conditions had become far from satisfactory. Many merchants and farmers were selling out there in preparation to coming here.

Mr. Peterson brought back many samples of seeds and grains which he will use in his farm. He has also under his control 250,000 gladioli bulbs which he will develop at Irma.

## ZION LUTHERAN NEWS

At the meeting held after the morning service on Sunday, April 7th, it was announced by the Trust Board that the last note due on the parsonage had been paid and that the church was now free of debt. Rev. Appelt was unable to take the evening service on Sunday owing to illness.

## CARD OF THANKS

Mr. and Mrs. Edwin Pocha wish to thank Mr. Bert Converse for his generosity and kindness in their recent bereavement. Also the friends of the Bear Creek Lumber Co., who so nobly came to their help when it was most needed, as well as to all the many kind friends who assisted in any way during their hour of affliction.

"Mamma," said 3-year-old Dorothy, "please may I have another piece of candy?" "Why," said mamma, "what did you do with the piece I just gave you?" "I lost it," replied the little miss. "I dess put it in my mouf, an' it talled wight down in my tomach."

## PLACER GOLD TO BE BOUGHT NEAR TO MEDICINE HAT

Medicine Hat, April 8.—Operations for the testing of placer lands for gold along the river below this city, will start around April 20. The Keystone placer drilling rig which has been purchased, was shipped some days ago from Portland, Oregon, and is expected here shortly.

The work will start at the Anderson Ranch, which is about 17 miles below Medicine Hat. The buildings there are being fitted up and prepared and will be used as the headquarters for the operation.
